L. MENDENHALL. ESTABLISHED 1869. T. W. HOOPES.

MENDENHALL & HOOPES, FIRST NATIONAL BANK BUILDING.

Money to Loan on Improved Property.

WATER PLANT PROGRESS. Contractor McDonnell Unexpectedly Struck Rock Yesterday.

Contractor McDonnell's men excavating the water trench, struck rock unexpectedly just west of Avenue A yesterday afternoon. It is estimated that the rock extends 200 or 300 yards. Twenty-five additional men were at once put on, making a total force of sixty men, and more will be added as fast as they can be obtained. It is hoped to get through the rock by Saturday night.

The back-filling of the one and one-quarter miles of trench between the pump-house and the Brighton clearing, in which the pipe has been recently trenched, is progressing rapidly. A test of a half mile of the Hugo pipe this side of the check valve in the clearing is preparing and will be made early next week.

Work on the Carroll-Potter contract west of Fortieth avenue east is progressing favorably, and the opening of 1000 feet more of trench has been ordered. The trench is opened to where Thirty-eighth avenue east. If planned, would cross Cambridge street, and the pipe is laid nearly to that point.

King & Steele are engaged in pipe-laying at Forty-seventh avenue east, on account of a lack of rivets. At the intake, where the pipe is laid, three weeks ago, two more lengths of pipe have been laid and they will soon be tested. An anchor is in place.

Since the structural iron has arrived at the pump-house, rapid progress has been made. The crane columns are up. The roof is being put on the boiler-house and it will be ready for the boilers inside of ten days. Ten bricklayers were at work at the pump-house today and five more are to be added tomorrow. The check valve has been received at the pump-house from the Prescott company and will be put in place at once.

RICHARDSON IS HERE. Crack Bicyclist Arrived Today and Appeared This Afternoon.

Lee Richardson, the famous bicycle rider, arrived today for his engagement at the fair and appeared this afternoon giving a remarkable exhibition. He will appear each day during the fair.

Tomorrow the horse races begin and there will be two events. The races are all mixed this year. The first tomorrow will be the 3-minute pace and trot, open to horses owned in St. Louis, Douglas county, Wis., and Carlton county horses, and the other will be the 2:30 trot and 2:40 pace. The purse in the first is \$150 and in the second, \$200.

Ella Range, the lone pacer, will also go a mile tomorrow.

May Be Hydrographer Here. Fred Louis Sawyer, an engineer in the United States navy, is in the city. He has just returned from a three years' cruise and is on a leave of absence. He is looking over Duluth to determine whether or not he wishes to be permanently stationed here as government hydrographer. He can have the place if he wishes it.

Removing the Dyke. The Duluth Dredge and Dock company has begun the work of removing the old dyke in the harbor, for which the company recently received the contract. The dyke is to be taken up entirely up to where the water is only two feet deep. This practically means

LEUTGERT

Robert Davey, an Englishman, the Cause of the Sausage Maker's Troubles.

DEFENSE SENSATION

Ex-Judge Vincent Tells How His Client Was Played For a Sucker.

Chicago, Sept. 22.—Ex-Judge Vincent today secured the attention of the press in his opening statement today by reference to a man named Robert Davey, who, he said, was the original medium through which the sausage maker's trouble arose, and whose actions resulted in Leutgert being arraigned before the bar of justice today charged with murder.

"A little over a year ago Satan, in the shape of a medium, well-dressed and educated Englishman named Robert Davey, came to Leutgert and was the cause of all his troubles," said Ex-Judge Vincent. "This man came with forged letters of introduction representing himself as a man of great means. Leutgert has always carried his heart on his sleeve as you will see when he goes on the witness stand."

This was the first official notice that Leutgert would testify in his own behalf and the announcement was received with a show of interest by the prosecution and spectators. Davey, who Leutgert had met at the "Sausage King of the World," said Ex-Judge Vincent, was an artist in painting glowing pictures of wealth and fame. He told Leutgert he represented an English syndicate and that a company would be organized with a capital of \$200,000 and bonds for an additional \$400,000 would be issued. The company would be known as the A. L. Leutgert Sausage and Packing company. Davey said, and Leutgert would be given \$200,000 cash and the balance in stock. Out of the cash he could pay off \$50,000 of indebtedness, which was covered by his factory.

"Mrs. Leutgert was delighted over the visions of wealth revealed by Davey's picture and without suspicion, honest and without suspicion, was placed over the prospect of rank and wealth. The Englishman, who was Nelson Morris in the meat world, Davey had expenses during the time he was negotiating with Leutgert, whom he had induced to close his factory preparatory to his departure. He had taken place Jan. 1, 1897. He called upon Leutgert for money and not in all about \$25,000. Davey told Leutgert the money and bonds were in the custody of the Connecticut bond company of New York. Leutgert and Judge Goodrich, to whom Leutgert had gone, went to New York. But none of the bank or bond companies of that city had been swindled."

The attorney told Leutgert's struggles after this. How Leutgert had been injured by the closing of the factory, and in addition to the loss of \$25,000 to Davey he lost by the failure of E. S. Dreyer & Co.'s bank. Then he borrowed \$25,000 from Foreman Brothers, but none of the bank or bond companies of that city had been swindled."

The life of Leutgert was briefly sketched. He arrived in America thirty-two years ago without a dollar, and built up an enormous business. He made 3,000,000 pounds of sausage a year and sold it all over this country and Europe. Often there were 100,000 pounds of meat in the factory at one time and the sales from the factory to retail customers averaged \$150 per day. Nineteen years ago Leutgert married Miss Louise Rickard, the daughter of a wealthy family. She was his second wife. They had four children—two boys and two girls. The latter are now dead. Ex-Judge Vincent denies that the couple lived unhappily. He said their lives were not a continuous honeymoon, but the couple lived as happily as people in their station usually do.

During the afternoon session the first evidence of the defense was introduced. The crowd at the criminal court building this morning was great and the officers experienced much trouble in keeping the peace.

Attorney Vincent started the prosecution by the magnitude of his claims in the last few minutes of the morning session. That Mrs. Leutgert was alive, he said, he would prove by witnesses who have seen her since May 1, and he would also prove that the bones found in the vat were not human but were put there by the police authorities. As for the rings claimed to be Mrs. Leutgert's, the attorney said he would show that they were not hers, and that she had never seen them. The attorney's speech made an impression on those in the court room and there was a cheerful smile on Leutgert's face as he limped back to jail.

NILE ADVANCE STOPPED. London, Sept. 22.—It is learned that no further advance will be made at present by the Anglo-Egyptian expedition up the Nile. It is recognized that an attack upon Khartoum would necessitate a strong backing of British troops and, owing to the troubles in India, the war office cannot send such a force to Egypt for some time to come.

EMPEROR WILLIAM'S TRIP. Breslau, Sept. 22.—Emperor William of Prussia, who is expected to visit the Baltic coast, his majesty was met at the Redt depot by the empress, the duke of Saxe-Meiningen, Prince Hatzfeldt, their majesties, while driving to the castle, were warmly cheered by the crowds in the streets.

RECEIVE A RESIGNATION. Madrid, Sept. 22.—The cabinet will in the last few minutes of the morning session receive the resignation of the Spanish minister of finance, the queen regent has refused to sign his resignation. The resignation was received by the bishop of Majorca. It is claimed, taking possession of the bishopric of a church in the bishop's diocese.

THEY MUST BE PATIENT.

Minnesota Office-Seekers Must Wait Until December.

Washington, Sept. 22.—(Special to The Herald.)—Tim Byrnes, of Minneapolis, who is in Washington as attorney for the Minnesota state fish and game commission, today secured the issuance of a very important order by the commissioner of Indian affairs. Agent Allen, of White Earth, and the Indian agent in Wisconsin have been instructed to see that every Indian trader and Washington themselves observe the state laws as to the shipment of fish or game off the reservation during the close season.

Their attention is particularly called to each feature of the state law, and they are warned, in no uncertain terms, that they must heartily co-operate with the state authorities in the enforcement of the game laws. Every Indian trader who fails to observe its provision will lose his job.

SEVENTY DROWNED.

The Terrible Results of the Vessel Collision in Austrian Waters.

London, Sept. 22.—A special dispatch from Vienna says that seventy persons were drowned as a result of the collision yesterday evening at Flume, between the steamer Ika, a local passenger vessel, and the British steamer Tiria, which was bound for port as the Ika was entering.

The latter sank in two minutes and in full view of thousands of people, who crowded to the piers and water front when the accident occurred.

MUST OBSERVE STATE LAWS.

Indian Agents and Indians Must Obey Game Statutes.

Washington, Sept. 22.—(Special to The Herald.)—As predicted in the Washington dispatches to The Herald yesterday, President McKinley has left Washington without appointing any of the applicants from Minnesota for diplomatic positions. As the Chinese mission is still unsettled, however, the chances of ex-Congressman Snider, of Minneapolis, for this important position are regarded as good. It is not known here now that either Snider, Swenson or John Baumbach will be appointed before December next, however.

TORPEDO BOAT SUNK.

Craft Capsizes and Drowns Duke Frederick William and Eight Sailors.

Hamburg, Sept. 22.—Torpedo boat No. 25 has capsized and sunk near the lightship off Cuxhaven. Eight of her crew, including her commander, Duke Frederick William of Mecklenburg-Schwefeln, were drowned.

The duke was born in 1871, held the rank of lieutenant in the German navy and was a brother of the grand duke of Mecklenburg-Schwefeln. A salvage steamer has gone to the scene of the disaster.

THAT SPANISH INTERVIEW.

What Woodford Remarked to Duke of Tetuan.

Madrid, Sept. 22.—It is learned here upon high authority that the much-discussed interview of Saturday last between the United States minister to Spain, Gen. Stewart Woodford, and the Spanish minister for foreign affairs, the duke of Tetuan, was merely a preliminary. Gen. Woodford reproached the duke of the gravity of the conditions in Cuba, which he said so far from being improved, had become worse.

The duke, who is a member of the United States, that Spain would speedily end the war and give justice to the Cuban people. He said so far from being improved, had become worse.

Several of the prominent banks were not represented, but according to the statements of those who participated in the meeting, their absence was due to the fact that the heads of the banks were not in the city. A resolution protesting against the Bank of England's proposed action was adopted. The duke of Tetuan, who is a member of the United States, that Spain would speedily end the war and give justice to the Cuban people. He said so far from being improved, had become worse.

Robert Benson, who threatened at the recent meeting of the Bank of England, to sell his share stock if silver reserves were held, took a prominent part in the meeting. He was a prominent member of the London bankers' protest upon the part of the London bankers is unprecedented and is the only thing talked about at present in financial circles.

A SUSPICIOUS SHORTAGE.

Collection Agency in New York Is Short \$30,000.

New York, Sept. 22.—It was announced today that a collection agency, known as the United Merchants of New York, with offices in this city, was short \$30,000. The concern went into the hands of a receiver two weeks ago. Ferdinand A. Thompson, counsel to the failed concern, and who had 123 shares of the stock, has not been seen since a receiver was appointed. Mr. Thompson's friends declare that if his accounts are not correct it is due merely to an oversight and that he will undoubtedly return to straighten matters out.

Mr. Thompson is a nephew of "Lucky" Baldwin. He lived in very good style at Linden, N. Y., and was regarded as being extremely wealthy. The United Merchants of New York was incorporated in New York in 1890, to collect for stockholders. It had an additional membership of 150, each subscriber paying \$100.

ITALIAN TOWNS FLOODED.

London, Sept. 22.—A special dispatch from Rome says that two villages near Brindisi have been flooded and that twenty people have been drowned.

FLY WHEEL FATILITY.

Providence, R. I., Sept. 22.—By the blowing of a fly wheel coming over five tons at the factory of the Providence Rubber Shoe company today, two persons were killed and several persons injured. The killed are: William J.

HEARBY WELCOME

Given to President McKinley By the People of the Bay State.

WELCOMES EN ROUTE

A Stop at Williamstown and Hurried Hand-Shaking-- Arrival at Shaking.

Williamstown, Mass., Sept. 22.—When the special containing the president and his party reached here, there was but a small gathering of townspeople on the platform. It was, however, an enthusiastic assemblage, especially when President McKinley came on the car and bowed his acknowledgments to the applause. When the train stopped Lieutenant Governor W. Murray Crane and Hon. W. H. Plunkett, of Adams, entered the car to extend to President McKinley the welcome of Massachusetts.

The president had time during the two minutes' stop of the train to shake hands with about 200 of the citizens. Before the train started a delegation from Greenfield entered the president's car and extended to him in behalf of Franklin County a letter of welcome. The president was to visit there on Friday and view the coaching parade of the Franklin Agricultural society.

The president was assured of a welcome from 50,000 people. President McKinley in reply said: "I would take great pleasure in visiting Greenfield, but I have received an invitation to spend Friday with John Sloan at Lenox. I should like to visit Greenfield. I am willing to do it if satisfactory arrangements can be made."

ARRIVAL AT ADAMS.

Adams, Mass., Sept. 22.—President McKinley and party arrived in Adams at 9:30 o'clock.

MCKINLEY DRAWS CROWDS.

Adams, Mass., Sept. 22.—It could not be expected that North Adams and the quiet town of Berkshire Hills would be the scene of a fair day than that which dawned on the visit of the nation's chief executive and the other distinguished guests. The people were being entertained by the youngest city of the commonwealth and the neighboring towns of Adams. The people were early astrait in anticipation of the arrival of the president and party, and the railroads and electric cars brought in thousands of excursionists to catch a glimpse of the president. Hon. J. D. Long, secretary of the navy, and Mrs. Long arrived last evening and were entertained at Adams by Charles Plunkett, brother of President McKinley's host.

BANKS ARE INDIGNANT.

Do Not Like the Bank of England's Silver Resolution.

London, Sept. 22.—A meeting of the banks of London called to protest against the action of the governor of the Bank of England, Hugh C. Smith, at the semi-annual meeting of that institution on Thursday last, read a letter dated July 22, addressed to the chancellor of the exchequer, Sir Michael Hicks-Beach, in which the governor announced that the bank was prepared to carry out what is laid down as permissible in its charter, namely, to hold one-fifth of the bullion held by the bank in gold, and the remainder in silver, and immediately to convert all French mints are again open to the free coinage of silver, and that the bank would be prepared to receive and sell at a satisfactory price, was held at the clearing house today.

These, but used to be the words of representatives of powerful interests. Several of the prominent banks were not represented, but according to the statements of those who participated in the meeting, their absence was due to the fact that the heads of the banks were not in the city. A resolution protesting against the Bank of England's proposed action was adopted. The duke of Tetuan, who is a member of the United States, that Spain would speedily end the war and give justice to the Cuban people. He said so far from being improved, had become worse.

Robert Benson, who threatened at the recent meeting of the Bank of England, to sell his share stock if silver reserves were held, took a prominent part in the meeting. He was a prominent member of the London bankers' protest upon the part of the London bankers is unprecedented and is the only thing talked about at present in financial circles.

ALIEN LABORERS

Canada Adds a Sweeping Alien Labor Clause to Her Timber Laws.

RETALIATES HARD

It Affects the Lumbermen All Along the International Boundary Line.

Detroit, Mich., Sept. 22.—A sweeping alien labor law clause was added to the crown timber regulations by the Ontario cabinet yesterday, and has caused some disquietude among Michigan and other United States lumbermen, who are operating in Canada. The new regulation prohibits employment of any person not a resident of Canada in any capacity in lumbering operations.

The only exceptions made are as to a manager, bookkeeper and one estimator or explorer for each corporation. The disregard of this law will be punished by suspension of the lumbermen's license, and timber cut by any non-resident employees shall be regarded as cut by the corporation.

Some of the Michigan lumbermen who have been interviewed today believe that this regulation was provoked as retaliation for United States tariff legislation, or the Corliss alien labor law. Many Michigan men are employed in the operations of American lumbermen in Canadian territory.

LABOR LEADERS CONFER.

Discuss the Mining Situation and Other Things.

Washington, Sept. 22.—The executive council of the American Federation of Labor met today at the headquarters of the organization in this city to discuss the mining situation. There were present Samuel Gompers, president of the American Federation of Labor; Secretary Frank Morrison; J. J. McGuire, of Philadelphia; James Duncanson, of Baltimore; James C. Nease, of New York; and Mr. Ward of Pittsburgh; M. D. Hatchford, president of the United Mine Workers' association; Emerson Miller of the executive board of the United Mine Workers, and Frank K. Welles of the Virginia mining district.

After discussing some international matters the subject of the membership of employers and foremen in an affiliated union at Bonnet, Mont., was discussed at length by the council. It being alleged that the working members of the union were not free in the exercise of their rights of free association, the foremen and bosses, to be released from membership in the organization, in order that the organization for the betterment of the wage-earners may not longer be interfered.

The dispute existing between the United Mine Workers and the John H. Stetson company was also a matter of discussion and some of the executive officers of the federation will request the firm to recognize the union of miners and to grant fair and reasonable conditions to their employees. On application of the Canadian miners, the union of miners is antagonistic to the union's interest. The conclusion was reached that it would be more advisable to reach that examining into individual complaint, in order that firms who would agree to employ union help might not be placed at a disadvantage.

A general boycott. The council also resolved to continue its present organization in the mining districts of West Virginia and Illinois and also to appoint two additional organizers to aid the miners in those states in effecting an early settlement of their grievances. The council also resolved to continue its present organization in the mining districts of West Virginia and Illinois and also to appoint two additional organizers to aid the miners in those states in effecting an early settlement of their grievances. The council also resolved to continue its present organization in the mining districts of West Virginia and Illinois and also to appoint two additional organizers to aid the miners in those states in effecting an early settlement of their grievances.

COLLIERIES ALL WORKING.

Incendiaries Burn a Breaker at Beaver Meadow.

Hazleton, Pa., Sept. 22.—Practically every colliery in the region is working today, although with full forces of men. The Audenrold mine did not go out and the 600 at Yorktown have returned to work.

The feeling prevalent for several days that there would be no further trouble in the region has changed to the fear of the burning of the breaker at Beaver Meadow last night. All evidence in connection with the fire points to incendiary action. Consideration of the withdrawal of the military will, therefore, be deferred. A squadron of city troops was sent to Beaver Meadow this morning to be on hand in case of further violence.

Organizer Fahy of the Miners' union says that the miners will have to suffer in public opinion in consequence of the fire which resulted from accident or malicious intent, but he said that the fire might have been the work of persons not identified with the strikers for the purpose of swaying public opinion against the latter.

WILL WAIT UNTIL SPRING.

Miners Will Not Try to Reach Klondike This Fall.

Victoria, B. C., Sept. 22.—The steamer Queen, which arrived this morning brought back eight miners who decided to wait till spring before proceeding to the Klondike, there being four feet of snow on the summits and ice is forming in the small streams. Those who want to get over now have to go by dog trains. Horses are no longer of any use here. The new law of the Klondike refused \$300 and \$400 a few weeks ago can now be bought for \$5. A large number of men are going to the Klondike in winter, but many will come south and make a fresh start in the spring.

A BRIDGE ON FIRE.

Chattanooga, Tenn., Sept. 22.—The county bridge across the Tennessee river here caught fire at 1:30 p. m. and is burning rapidly in spite of the efforts of the fire department. It has burned for a half hour and is burning toward the city side. It will probably be stopped after two spans of the bridge have been consumed.

WANTS HIS RESIGNATION.

New Orleans, Sept. 22.—Mayor Flower has requested the resignation of Chief Jackson of the police department.

THE WEATHER.

United States Agricultural Department.
Weather Bureau, Duluth. Synopses
weather conditions for the twenty-four
hours ending at 6 p. m. Central time.
Sept. 22.—With the exception of light to
moderate showers at Milwaukee and St. Louis,
the weather has continued fair in all
reporting districts.

The distribution of pressure is quite
uniform, the barometer being highest in
Wyoming and lowest north of Montana
with but slight intermediate gradients.
It is generally warmer than yesterday
in the Mississippi and Missouri valleys
in the upper lake region. A cold front
moving the lowest temperature
reported was 40 at Lander. The highest
was 56 at Omaha, Kansas City, Davenport,
Chicago and Milwaukee City. Maximum
temperatures of 40 to 58 degrees were
reported yesterday afternoon as follows:
Rapid City, 40; Pueblo, 40; Denver, 40;
Billings, 40; Minneapolis, 40; St. Paul,
40; Chicago, 40; Milwaukee, 40; St. Louis,
40; Kansas City, 40; Omaha, 40; Davenport,
40; Des Moines, 40; Sioux Falls, 40; St. Joseph,
40; St. Cloud, 40; Duluth, 40.

Minimum temperatures last night:
Duluth, 40; Minneapolis, 40; St. Paul,
40; Chicago, 40; Milwaukee, 40; St. Louis,
40; Kansas City, 40; Omaha, 40; Davenport,
40; Des Moines, 40; Sioux Falls, 40; St. Joseph,
40; St. Cloud, 40; Duluth, 40.

Duluth temperature at 7 a. m. today, 51;
maximum yesterday, 56; minimum yesterday,
40. Local forecast for Duluth and vicinity:
Fair tonight and Thursday; light to moderate
showers at Duluth and vicinity on Thursday;
warmer in west portion tonight; light to
fresh southerly winds.

JAMES KENEALY,
Local Forecast Official.

THE LUTGERT CASE.

The state has closed its case in the
famous Lutgert murder trial at Chicago.
It must be admitted that the
prosecution has not made out a strong
case. The proof of the corpus delicti is
rather weak, particularly as all the
evidence is circumstantial. The alleged
bones found in the vat in Lutgert's
sausage factory or in the yard adjacent
to the factory may be human bones or
not—there is nothing positive on this
point, because the osteologists and
physiologists differ. This creates the
reasonable doubt, which must have
great weight with the jury.

As the Chicago Record says, "When
the jurors have heard these bones positively
identified by one set of witnesses and
the identification as positively denied
by other witnesses, they not only
may be forced to look wholly to
the other circumstances of the case for
guidance in determining their verdict,
and perhaps the fact which will stare
at them most persistently from out the
mass of evidence will be the difficulty
of the task set for the state—namely, to
bring beyond a reasonable doubt—that
Louise Lutgert has been slain. The
strong inference is that she is dead; the
jurors may have a strong impression as
to how she met her death. But they
will be invited to consider that according
to the police records over 1500 people
have dropped out of sight or 'mysteriously
disappeared' in this city since the
list of May, and that the disappearance
of Louise Lutgert is in itself no
proof that she is dead or that the bones
in the vat are her bones."

The defense may be able to explain
away all the circumstantial circumstances
which were presented by the testimony
on behalf of the state, or to break the
chain of circumstances of the case for
guidance in determining their verdict.
If it can do this and produce expert
testimony in contradiction to that introduced
on the other side as to the
bones exhibits, it is very likely that the
jury will bring in a verdict of not guilty
or fail to agree.

THE KLONDIKE COMPANIES.

According to the New York Financial
conservative authority places the capitalization
of the various Klondike enterprises
launched since the discovery of
gold in that section at something
over \$100,000,000. The list of companies
inviting stock subscriptions to different
schemes connected with the new region
is growing rapidly, and unless a check
is soon made the total bids fair to pass
the \$200,000,000 mark. It is true that
this amount will not be paid in cash
and much less will it be used in developing
the resources of the north, but as
alluring country to the north, but as
an object lesson in modern investment
methods it is interesting, and would
be amusing were it not that the losses
will fall where they can least be
afforded. Nowhere this side of Europe,
says the Financial Times, has there been
anything approaching this sudden craze for
participation in the promised profits of
a new El Dorado. England, France
and Germany are just now recovering

from the temporary insanity which
prompted the showering of millions in
Kafir stocks, the majority of which
were worthless, and it will not be
strange if America is destined to go
through the same experience. Words
of caution will not avail to stop the
senseless stampede to put money in
chimerical and impracticable schemes
outlined in catchy language in the daily
press. The victims must learn the lesson
taught by the Kafir excitement
abroad. The only redeeming feature
about the whole business is that the
awakening will not involve such wide-
spread loss and distress.

Outside of one or two propositions,
the greater number of the Klondike
companies may be classified as frauds. The
money which deluded men and women
invest in stock will be used to pay big
salaries to managers and maintain ex-
pensively furnished offices, and the result
will be a repetition of the experience
of the English people who invested
in Kafir. Money invested in most of
the Klondike companies will be lost
forever. Those who want to invest in
gold stock would do better, in any
bought an interest in some of the Rait
Lake or other Western gold properties.

THE CURRENCY COMMISSION.

The members of the currency com-
mission, the appointment of which
was authorized by the convention held
some time ago at Indianapolis, have
been selected and will meet at Wash-
ington at an early date to enter upon
their labors. The object of this com-
mission is to devise a plan of currency
reform for the consideration of con-
gress at its next session, and it has
received a semi-official endorsement
on the part of the administration by
Secretary Gage. It is impossible to
say what conclusions it may reach, or
whether congress will be willing to ac-
cept them. The members of past con-
gress have not been disposed to re-
gard with favor the advice of outside
commissions, and the report of the cur-
rency commission is not likely to meet
with a better fate, in view of the great
diversity of opinion entertained upon
the subject.

While all sections of the country are
represented in the membership of this
commission, the Omaha Bee points
out that only two or three of its mem-
bers have more than a local reputa-
tion. It is understood that ex-Senator
Edmunds will be the chairman of
the commission and he is one of the
members with a national reputation,
but it is as a distinguished lawyer
rather than a financier. Ex-Secretary
of the Treasury Fairchild is another
member of whom the country at large
knows something, but there is nothing
in the record of Mr. Fairchild as
secretary of the treasury that gives him
a claim to be regarded as a great
authority in financial affairs. Profes-
sor Laughlin is a political economist of
some distinction, but he has probably
had very little experience as a practical
financier. The Bee adds: "The
composition of the commission will
doubtless be subjected to criticism.
Banking, manufacturing, merchandising,
railroading and the legal profession
are represented on it, but the
great agricultural interest and the no
less important labor interest were ig-
nored in making up the commission.
This was certainly a mistake and one
that will be very likely to have an ef-
fect upon public judgment not alto-
gether favorable to the conclusions
which the commission may reach—conclusions, it may be
remarked, which can be pretty ac-
curately foreseen. In a word, the
commission seems to have been con-
stituted with a view to approving the
suggestions of the Indianapolis currency
reform convention. We have no objec-
tion, however, to discredit the com-
mission, though as we have heretofore
said we do not expect any practical re-
sults from its labors."

As a representative Republican journal,
the opinion of the Bee is entitled to
weight as indicative of Republican
sentiment on this subject. The fact
is that, outside of a certain clique,
there is no demand for any change in
our currency laws at present. The
business interests of the country pre-
fer that nothing be done to create dis-
turbances.

THE ARMOR PLATE FACTORY.

The application made to the common
council for an appropriation of \$200 to
prosecute the campaign for the location
of the government armor plate factory at
Duluth should receive serious con-
sideration. It is hardly necessary to
dwell upon the benefits which Duluth
would derive from the location of the
plant here. It would undoubtedly be
attended by a wonderful development
in industrial way. Other iron and
steel industries would come here. The
action of the government would dem-
onstrate that this point possesses
great advantages for iron and steel
manufacture, and it would not be long
before the whole head of the lakes
would be dotted with large plants giv-
ing steady employment to thousands
of men at good wages.

Should Duluth fail to persuade con-
gress that this is the best point for the
armor plate factory, or should congress
decide to abandon the idea of a govern-
ment plant, Duluth would lose nothing
by the expenditure of this money. The
advertising received throughout the
country would more than recoup the
city for this moderate outlay. It would
do much to counteract the effect of the
erroneous impression created in the
East by the false dispatches sent out
from here representing that Duluth is
financially bankrupt. By inviting
prominent senators and representa-
tives to come here and look over the
ground, Duluth would demonstrate that
she is not in a bankrupt state, or in a
condition approaching, but is alive and
full of enterprise and in a sound finan-
cial condition, ready to take full advan-
tage of the season of prosperity which
has opened.

As a political platform of principles
the declaration by which Senator d'An-
nunzio, the Italian novelist, recently an-

nounced his candidacy for parliament
before a rural constituency would
be passed in America. Said he:
"My soul, upon which I have poured the
strongest wines of ancient wisdom and
the subtlest perfumes of modern fancy;
my sole, which in its boundless wander-
ings has reached the furthest limits im-
posed on the greed of knowledge, and
has soared above those airy summits
where the rhythm of ideal life attains a
celestial far exceeding that of the human
pulse; my soul, gentlemen, has never-
theless remained attached with filial
affection to my native land."

LIBERTY OF THE PRESS.

The Wisconsin supreme court has
handed down a decision which once
more upholds the liberty of the press
as guaranteed by the constitution. In
the case decided by the court, the right
of a newspaper to criticize judges and
courts is upheld. It is pointed out
that the actions of judges in regard to
cases finally decided are legitimate
subjects for criticism, and that a
judge has no right to become accuser,
judge and jury and summarily punish
his critic by imprisonment. Discussing
the claim that a judge may so punish
his critics, the Wisconsin supreme
court says: "If there can be any more
effective way to gag the press and sub-
vert freedom of speech, we do not know
where to find it. Under such a rule the
merits of a sitting judge may be re-
hearsal, but as to his demerits there
must be profound silence. In our
opinion no such diversity of duty hedge
about a judge, certainly not when he
is a candidate for public office."

This is sound doctrine and in line
with the rights guaranteed by the
first amendment. It is proper that
newspapers shall be prohibited from
unfair comments upon cases which are
sub judice or upon the action of the
judges in relation to such cases before
they are finally decided, but it is the
constitutional right of the press to
freely criticize the conduct of a judge
in a case finally decided and no judge
has the power to adjudicate any pub-
lisher or editor guilty of contempt for
doing so.

The courts deserve severe
criticism at times, and the press ex-
ercises its duty to the public when it
discusses without fear or favor any
acts of the courts which are corrupt
or unfair or in any way opposed to the
impartial administration of justice.

A CHIMERICAL SCHEME.

The story published in the St. Paul
papers, and reproduced in another col-
umn, about a "great scheme" to pro-
duce uninterrupted navigation from the
Lake of the Woods to Lake Superior,
and to ship Manitoba wheat in boats
direct from Rat Portage, is evidently
the product of a highly developed im-
agination. The high divide between the
two lakes is an insuperable
barrier to the construction of a canal
connecting their waters. It would take
years to blast out a canal across this
divide, and the cost would be enormous.

The present generation at least will
not see this wonderful scheme carried
out, and the probability is that it will
never be accomplished. Duluth is the
natural port for the shipment of the
wheat for both the American and Cana-
dian Northwest, and with the build-
ing of the Grand Rapids and Winnipeg
canal, the construction of the Fox and
Klein's scheme to construct a
deep waterway from Lake Superior to
the Mississippi river at St. Paul.

The 11th and 12th days of October
have been designated as the centennial
of the Tennessee centennial celebra-
tion as authors' and artists' days, and
on these days it is proposed to hold a
meeting of the two distinguished
classes of workers at Nashville.

The convocation was made up of
men and women who had in view the
elevating of the literary and artistic
standards of the country, and especially
of the South. The tendency of the day
to the deterioration, but there is another
tendency more manifest in the South—
and literature—the tendency to sub-
ordinate artistic and literary pursuits
to commercial considerations. Fine art
is subordinated to commercial art, and
the best writers are those who can
write from a purely commercial stand-
point. What may be done towards
the proper standard a higher place
in the minds of the people is one thing
to be considered by this gathering.

Notwithstanding that the heirs of the
Norwegian millionaire, Nobel, have
contested his will, under which much of
his fortune was left to establish four
annual prizes for the most distinguished
work for literature, science and hu-
manity, the Norwegian parliament has
appointed a committee to dispose of the
prize for that person who has done most
to make war impossible. The choice is
said to lie between the Russian novelist,
Tolstol, and the Russian painter of re-
alistic war scenes, Verestchagin.

A story comes from Alaska that when
a boat arrived at Dawson City with
whisky and tobacco and no provisions,
the miners were so enraged that they
took out the manager of the transporta-
tion line and gave him twenty-five
lashes on the bare back. The weak
part of the story is that they threaten to
knock in the head every barrel of
whisky which reaches Dawson.

Tams Bixby has a better job than
that of general manager. He was
standpoint at least. Tams was
never known to let go of a good thing.
Besides he knows the people have never
forgotten that he was the junior partner
of the Merriam-Bixby machine.

Boss Platt seems to be carrying all
before him in the Republican primaries
in greater New York. He is laying his
opponents low.

The Chicago Times-Herald has a
learned editorial on the decline of poker,
claiming it has gone out of fashion "be-

Royal makes the food pure,
wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.

cause nobody seems to care to play it."
May not the cause be that during the
hard times of the last few years de-
voted of the game have not been able
to get enough money to ante?

The London Saturday Review asks:
"How long are women most beautiful?"
The Chicago Times-Herald furnishes an
answer: "As a rule, about five feet,
four inches."

The Kansas City Times expresses the
opinion that the whiskies of New York
will soon cure Richard Croker of the
waters of Carlsbad.

A gubernatorial boom has been started
for Mayor Harrison of Chicago. His
good record as mayor is responsible.

"Concerning woman suffrage, the New
York Sun says: 'There is no egg
laid in a hen-rail barnyard.'"

Do not forget to attend the county
fair. You will find much to instruct
and interest you.

"America," says the Philadelphia
Bulletin, "has all the potatoes and Ire-
land all the rain."

Attorney General McKenna gave a
death blow to section 22, Hurrah for
Mac!

New York has clean streets now, but
it costs \$3,000,000 a year to keep them
clean.

LIGHT AND BRIGHT.

Chicago Tribune: "Mike Althoff" said
the girl reporter, "let me ask you how
you feel the first time you ever appeared
before the public in lights?"

"Cold," briefly replied the danseuse.

Detroit Free Press: "What are fish
stories, brother Tom? They are those tales
which bring home to the men who
proposed to her while she was away."

Boston Transcript: The landlady—It is
you know. The frank boarder vigorously
work with knife and fork—Shouldn't
think you'd have any trouble to keep
such steak as this."

Brooklyn Life: "Do you know, I'm
leaving my house, I really be-
lieve I'm losing my nerve."
"How do you notice it?"

"I'm getting so I hate to ask any one
for a loan. As soon as I saw you I be-
gan to tremble."

Chicago Record: Mrs. Zeebman seems
to be a great power. In this neigh-
hood, is she as intellectual?"

Cleveland Plain Dealer: "And so Dr.
is dead? Dear! dear! That's a severe loss
to the community. What was the matter
with him? He swelled a peachstone and it got
stuck somewhere."

Chicago Post: How absurd it is that
any one should have thought it necessary
to make the clothes don't make the
man, it's not the clothes that make the
man, it's the man that makes the clothes."

Washington Star: "It is a monstrous
calumny to insinuate that we have been
driving Cubans recently," said the
Spanish minister.

"Can you prove that?"
"Certainly. Everything knows that we
haven't been able to catch a Cuban in
six weeks."

Washington Star: "Dolm," said that
gentleman's wife, "you're the contrast
that walks, an O'll prove it to you."
"O'll defy you."

"Will you answer me, was question,
then?"
"I'll try."

"How did you celebrate Labor day?"
"Knocking off work 'an' doin'
nothin'."

SMILES.
My dear one's smiles! how prized they
were! When we were sweetly spooning,
And dearer still to me to share
His smiles while honeymooned;
But now his smiles of every day
Six smiles here fall to seven.
Since marriage I am pained to say,
He takes his smiles too often.

Denver Post.

Has He Made Mistakes?

Minnesota Journal: The Wadena
County Pioneer, edited by Charley East-
man, doesn't like what was recently said
in this column about Congressman Mor-
ris and his mistakes in the matter of
dispensing patronage in the Sixth dis-
trict. The Pioneer can't afford to like
anything said against Morris, no matter
how true, for its editor is to be Wadena's
postoffice appointment, have gone quite
so far from the widely accepted facts as
to hint that what I said was not true.
If Morris has made no mistakes in Wad-
ena—and Mr. Eastman's drub on the
appointment that he has not—it does not
follow necessarily that everywhere else
there is no mistake. How about some of the offices
in Mill Lake county, for instance?

Cancer

Mrs. A. H. Crausby, of 158 Kerr St.,
Memphis, Tenn., paid no attention
to a small lump in her breast, but
when it grew into a cancer of the
most malignant type.

The best physicians
declared her case hopeless.
At last resort, S. S. S. was given,
and an immediate improvement re-
sulted; a few bot-
tles cured her
completely.

no sign of the dis-
ease has returned
for ten years.

THE FAIR

IS OPENED
Beautiful Weather and Fine
Attendance Give it a
Hopeful Start.

EXHIBITS IN PLACE
Bicycle Races This Afternoon
---Ella Range and Lee
Richardson Tomorrow.

The county fair has been opened and
on a day when all of the conditions were
favorable to an attendance such as
would make the heart glad of any of-
ficial who had the responsibility of its
inception upon his shoulders. That in-
dividual is happy today for the at-
tendance is far ahead of the weather and
even with an inferior day tomorrow the
people who go with the weather man
will have to hustle to catch up. The
day is a perfect one and as a conse-
quence people commenced coming as
early as 9 o'clock to see the sights of
the county fair. Everybody knows that
during the forenoon of the first day of
a county fair there is nothing to see
except the few exhibits which are being
made ready for the sight-seers to fol-
low. Regardless of this fact there
this forenoon and so well did the ex-
hibitors do their work that the main ex-
hibition building was in fairly present-
able shape by 10:30 o'clock. All was
ready at noon and at that hour the in-
closures were such that the officers of
the St. Louis County Agricultural so-
ciety felt that they could congratulate
themselves that their work of three long
weeks of preparation had not been in
vain.

But it was this afternoon when the
crowd commenced to come. They came
on foot. They came in carriages and
even in the street cars. The latter
mode of conveyance was the most popu-
lar and every vehicle stopped in front of
the ticket office with a large number of
sight-seers. It was a spectacle to make
the heart glad, even of those whose
interest in the exhibition went no far-
ther than a diminutive pin cushion
made of needle, a piece of canvas
and a ball of silk.

The fair is a success. It is a great
success. It is the biggest success ever
known in the county before and Acting
Secretary Underhill will go home to-
night feeling that his long sleep of toil
and worry has not been in vain. If he
don't feel good tonight he ought to.
The exhibit is a better one than any
of the county's ability to raise, to man-
ufacture and to produce than was ever
known in its history of fairs. They
comprise every variety included in the
list of premiums and they are such
that they are worth spending several
hours to look at before the visitor to
the fair can leave. It is time to go
and sit down and watch the special
attractions which the managers have
provided.

The management has decided, and
very properly too, that there shall be
no sale of intoxicating drinks on the
grounds. This rule was lived up to to-
day without infringement from any
quarter, and the officers of the society
are acting with the authorities of the
city in enforcing regulations in this re-
gard. Everything is to be orderly and
respectable, in every detail, and the
management of the fair has engaged a
corps of special police officers to en-
force order in every particular. If to-
day's attendance is a criterion of to-
morrow's there will be all that the
visitor desires to insure a pleasant,
entertaining and gratifying day or after-
noon to the people interested in the
home city and county.

This afternoon's exercises opened
with the bicycle races, and the entries
gave promise of some fine events. The
Duluth City band has been engaged and
will play at the grounds every day.
The great Ella Range, the horse
which goes a mile in 21, without har-
ness, rider, sulky or driver, will be seen
tomorrow afternoon, as also the great
trick bicyclist, Lee Richardson.

There will be three different awards
to be made in the bread contest, which
will be decided Friday afternoon. There
will be the annual milk award of \$5,
in five prizes, for bread made from im-
perial milk. The prizes for bread
award of \$5, in two prizes, for bread
made from Viking flour, and the county
award. The judges in the bread con-
test will be Mrs. B. Webster, Mrs. G. E.
Chapman and James Gray.

THE BABY SHOW.
Great interest is manifested in the
baby show, which will be one of the
features of children's day, Friday. The
judges have been chosen, and instead
of having three gentlemen, as last year,
who, it is believed, knew very little
about babies, three ladies, residing in

New Autumn Cloaks.

We are showing the largest line, the most correct styles, all carefully selected from the best products of the recognized Leaders of Fashion. Positively right in fabrics, in designs and in prices. Comparison serves only to make our pre-eminence more assured.

Ladies' Kersey Tailor Jackets at \$7.50

Our 10c Hose and 25c Underwear for Ladies, Misses' and Children cannot be bought anywhere else; the best value on earth.

N. B. You do not pay, at our store, one cent more for good and reliable goods, than others ask for inferior grades.

Dress Fabrics and Silks

Much attention is attracted by our beautiful line of Fancy, Plain and Plaid Dress Goods, and the magnificent display of Fancy Silks and Roman Stripes.

Dress Trimmings

A noteworthy feature in our Trimming department is the fine assortment of Brads and Brads. The popular Hercules and Titan weaves are represented. The Embroidered Chiffons in all colors (our own importation) are very popular. Also the new Roman Ribbons of which we have the best styles and assortment—are in great demand for trimming purposes.

Flannelettes and Cloakings

We are showing the very best styles and largest variety at the very lowest prices. Our fleece-lined Dress Fabrics are moving very rapidly, simply because we are selling them cheaper than any other house.

Linen Department

Is complete and stocked with the best in the market. Tomorrow we place on sale six pieces of Irish Bleached Table Linen, 68 and 70 inches wide, and worth \$1.10, for 85c.

Hats

Great selling of Ladies' Hats! And why not, when you can buy a Hat of us at that other houses began to charge \$1.10, \$1.75 for 95c.

Our 10c Hose and 25c Underwear for Ladies, Misses' and Children cannot be bought anywhere else; the best value on earth.

N. B. You do not pay, at our store, one cent more for good and reliable goods, than others ask for inferior grades.

Millerstein & Bonds Company.

REFUNDING MORTGAGE O. K.

Chicago, Sept. 22.—A special meeting of stockholders of the Chicago & North-western Railway company today voted to approve a new refunding mortgage was approved and authorized without dissent, by a vote largely exceeding two-thirds the total capital stock.

DOES NOT LIE DOWN

James E. York Brings Action
Against Ironton Plant Offi-
cers and Directors.

CASE OF FREEZE OUT

Says Squeezing Process Has
Been Applied to Himself
and Brother.

James E. York yesterday afternoon filed a complaint in a suit against the Ironton Structural Steel company and its officers and directors, in which he claims that the latter have in process a plan of squeezing him and his brother out of the company, and he seeks as protection a writ of injunction.

The defendants are as follows: R. T. McCabe, president; S. B. Haupt, vice president and general manager; W. R. Heath, secretary and treasurer; E. T. McCabe, C. D. Simpson, S. P. Haupt, Benjamin Orne and W. R. Heath as directors of the company, and also personally, and the Central Trust company of New York. The complaint states that the company was capitalized at \$1,000,000, with shares of the par value of \$100 each, of which 3500 were preferred shares constituting a first lien on the property of the company. All the stock was sold as early as 1892, and the plaintiff became the owner of 525 shares of the preferred stock, which he still holds. On this stock there are unpaid dividends at the rate of 10 per cent per annum due from July, 1892. Of the preferred stock \$20,000 has been purchased by the company and canceled. Plaintiff and his brother have held a large amount of stock in the company, but for two years they have had only a minority interest, each having \$100,000 of the common stock of the company. McCabe, Simpson and Orne have during that time held a majority of the stock, and it is alleged that all of the other heavy stockholders are relatives or under the control of McCabe. Last February there was a pretended meeting of the directors, of which no notice was given, and at which plaintiff and his brother were supposed as directors by men unknown to the plaintiff.

Since then the plaintiff has been excluded from the plant at Ironton by order of McCabe. The plant is complete, but not in operation. Up to the end of 1895 the company had received \$250,000 cash on hand amounting to \$21,000, bills receivable to \$25,000, and the debts were less than \$40,000. On Sept. 22, 1896, McCabe sent out notices of a special meeting of the directors for the purpose of raising part of the floating indebtedness and providing funds for working capital. At that meeting \$50,000 in bonds were voted against the protest of the plaintiff. The bonds have not been delivered, but are held by McCabe and his associates on claims for money advanced to the company. The officers have charged up large salaries unless authorized by the directors. Unless assented, large items for expenses of a New York office where no work is done have been charged up, and it is alleged that the defendants are manufacturing claims with which to take up the bonds and get the plant.

Mr. York alleges that the bond issue is fraudulent and void, and that it is part of the scheme to get the plant away from him and his brother. The defendants have failed to operate the plant, though trade conditions invite its operation. In order to more effectively freeze the plaintiff and his brother out, and to cheapen the plant that they may get it more easily. The plaintiff asks for an injunction against the sale and delivery of the bonds; he wants them adjudged to be fraudulent and void; he asks for an examination of the transactions of the company and an accounting of its indebtedness, with cancellation of all fraudulent and unlawful claims and pretended indebtedness; he wants an accounting of the preferred stock, and an order declaring it to be a lien on the plant; he wants the officers of the company ordered to honestly carry out the purposes of its being, and failing in that, he wants a receiver appointed to operate the plant under the direction of the court. Washburn, Lewis & Bailey are the attorneys.

Company G's Concert.

Company G had a large audience at its concert at the Armory last evening and it was a musical and social success. The orchestra, which had been engaged did not materialize until 11 o'clock and this interfered with some of the program numbers and the dancing, but the program as given was sufficiently pleasing to satisfy the audience. The Aeolian quartet sang three numbers, the "Quaker Song," "Swanee River" and "Last Night," and was warmly applauded. Col. G. H. Winsor of West Superior, sang "The Mulester of Tarangana." He has a fine bass voice. Miss Bailey, who is a recent acquisition to Duluth musical circles gave a violin solo, playing Bohm's "Lend me" and the intermezzo from "Cavalleria Rusticana" as an encore number. She is a talented performer. Harry L. Linton sang a pleasing tenor solo, "She Loves Me." Mrs. d'Autmont recited several selections and was recalled.

Expert Pastry Making.

Ladies interested in pastry making are invited to witness the preparing of pies, cakes and puddings by an expert, who will answer questions in relation to pastry making. All are invited to sample the cooked dainties, Sept. 23, at the ANDERSON GROCERY COMPANY.

Barjo, mandolin and guitar instruction. 125 W. Sup. St. Prof. Robinson.

COULD NOT EAT OR SLEEP

Serious Condition After Bilious Fever
—How Cured.

EAGLE BEND, MINN.—"I was taken sick with bilious fever, and for three weeks I could not sleep and I could eat very little. The medicine which I took from the doctor did not help me, and I made up my mind to try Hood's Sarsaparilla. When I had taken two bottles I was well. Hood's Sarsaparilla has also cured me of headache, with which I was troubled." MISS ADA E. YORNBORG.

Hood's Pills cure Sick Headache, etc.

Holes in Your Health.

What does that mean? Suppose you are taking in money all day, and drop it into a pocket with holes; you will find yourself poorer instead of a gainer by the day's business. Same with your health. You eat and drink and sleep, yet lose instead of gain strength. There's a hole in your health. Some blood disease, probably, sapping your vitality. You can't begin, too soon, to take the great blood purifier,

Ayer's Sarsaparilla.

BALDWIN GETS HIS PAY.

Judge Moer Orders a Verdict in His Favor.

Not only did Judge Moer give Wangelstein & Bray the amount of their claim against the county yesterday afternoon, as stated in The Herald last night, but he gave C. O. Baldwin the amount asked for his legal services for the county, and both claims were settled within a short time. In deciding the Wangelstein case Judge Moer decided also that if the county board chooses it can build a porchhouse out of whatever is available. This decision is important, as there was some doubt as to whether the money for a porchhouse if one was built could be taken from any fund besides the poor fund. Judge Moer said that heretofore he had been opposed to the building of a porchhouse, but after hearing some of the charges for outdoor relief and hospital bills he had considerably modified his opinion.

It took but a short time to settle the Baldwin case. After the jury was completed S. T. Harrison, who appeared for Mr. Baldwin, moved that the court instruct a verdict for the plaintiff, and the motion was granted. No evidence was put in. Judge Moer stated that he considered the charge to be very reasonable. The amount was \$290.75.

W. B. Phelps, who appeared for the county, took no stay in the Wangelstein case, but he asked for and received a stay of twenty days in the Baldwin case.

FIRST OF THE SEASON.

Football Game at the Fair Saturday Afternoon.

A good deal of interest is being manifested in the football game that is to be played at the county fair Saturday afternoon between the Duluth high school and the Broadway high school of Superior. It will be the first game of the season, and in order to start the season right there will be a hard struggle between the two clubs to win the first game. The Superior men are counting upon the fact that their team is somewhat heavier than the Duluth team, but the latter club is confident that there are surprises in store for them if they expect to win the game through that advantage.

The Duluth High School Athletic association met Monday and organized for the season with the same officers as last year. The only change was in the management of the football team, T. Parks resigning and his place being filled by R. D. Fox. The club is now planning for the fall's affairs on the gridiron, and a busy season is expected. There will be a game at Duluth with Ashland, Oct. 25, and there may be one with the Minneapolis Central High School club a week later, though that is not set definitely settled.

RAISED THE VALUATIONS.

State Board of Equalization Gets After the Elevators.

According to a dispatch from St. Paul the board of equalization has raised the assessed valuation of the elevators here from \$200,000 to \$250,000. Minneapolis elevators caught a raise of 50 per cent. The dispatch says: "The return of the Hennepin county assessor of \$270,000 on the elevators, warehouses and other improvements located on lands whose title is vested in railway companies, was considered too small by the state board of equalization and today the board increased that amount 50 per cent. Duluth has two elevators in this class, and they were returned at \$200,000. The board raised this sum 25 per cent. It was presumed that Minneapolis had much larger interests of this kind than Duluth, and an increase of 50 per cent was thought none too large."

FINDS ANOTHER PROBLEM.

Bridge Approach Produces Another Question for the Board.

The board of public works is now wrestling with the question of how to get the street railway tracks around the corner Garfield and Pine avenues without unduly encroaching on the sidewalk on one side or the space necessary for the passage of teams between the street and the railroad tracks on the other. It is indeed a dull day when a question concerning the bridge approach cannot be scared up to vex the souls of the members of the board. It is thought that at least a 15-foot space ought to be left between the south street car track and the Northern Pacific track. In order to leave such space, however, it will be necessary to leave the north street car track where it is at present. This, however, cuts off too much of a slice from the corner. President Smith and Mr. Wilson, of the board, went down there this morning to scratch their heads and figure over the matter.

Getting Down to Work.

Superintendent R. E. Denfeld yesterday made a tour of the schools in the eastern and central part of the city, and today he is going over the schools in the western part. Tomorrow he will go to Fond du Lac. As far as he had gone yesterday afternoon the attendance seemed to be about on a par with last year's, though it will not be greatly in excess of last year's attendance if it is quite as large. The schools were all getting down to routine work yesterday, and all will be settled by the end of the week. The complete return as to attendance will not be in before Saturday and perhaps not until next week.

Promised to Go Home.

William Freeman, an Archibald Loney out on the mourners' bench when Judge Edison opened court this morning, said Freeman had come down from the range to see the streets, and had made his observations mainly through the

MAIL ORDERS!

Will receive prompt attention. Goods safely packed and sent everywhere. Open Saturday evenings until 10 p.m.

WITH THE LINENS

Many a dealer has sent to us for the Linens we've been telling you about, but we are retailers. To be sure, present prices cannot be met by any other Duluth store. They are not apt to come here soon again.

A full 72-inch Bleached Damask, extra heavy, beautiful range of patterns, worth \$1.50, going at—

\$1.19

A full 72-inch Bleached Damask, extra heavy, Scotch manufacture, they'll ask you \$1.15, our price only—

89c

An extra fine, heavy 3/4 Napkin, sold as high as \$1.50, take them at—

\$2.75

We are offering an extraordinary value in an 18-inch heavy Linen Crash, worth 12 1/2c, cut to—

8c

Ask to see our new Art Denims, plain and fancy tickings, etc. They will interest you. Just received a beautiful line of Comforts, the large size. They are covered with silkoline and filled with the whitest cotton, some are plaided while others are ruffled. Don't fail to see them.

We have a fine assortment of fancy and colored Elderdowns at—

59c

Come and see our new stock of Percales, Satens, fleece lined, etc., for Wrappers.

September's Practical Economy!

Practical because most particularly emphasized in those lines which are called everyday wants—things you must have this fall and on which you can save money by purchasing now, even though it be a little in advance of actual needs. The closing days of September find this store brighter than ever with current bargains. Our policy knows no dull season, and keeps the attractions strong every day. This being so, the goods are always full of the sort of vitality that makes interesting talk—gossip you will say, but not merely gossip; news, real news. Let us tell you all about these new and stylish things.

FIRST SPECIAL FALL SALE ON THURSDAY AND FRIDAY.

FALL DRESS GOODS.

Leadership in Dress Goods Selling Counts for much—to you and to us. We offer you special and exclusive stuffs at prices asked by others for usual weaves, and often less. No old styles are tolerated; no dropping at the front. In all cases the price comparison is exact—no guess work. Simply this season's favored goods at less than this season's values.

SILK SPECIALS.

10 pieces Fancy Figured Colored Silk, good value at 75c, a yard—

\$5.48

VISITORS to Duluth will find the Power store one of the sights of the city. It is located right in the center of the shopping district.

BIG BLANKET SALE.

The ordinary dealer says that POWER'S Blanket man is foolish. Can even the biggest dealer control trade laws? Can Power buy at wholesale as cheap as he now retails? No! When present stocks are gone, up go the prices.

A full-size 10-4 heavy fleeced Blanket, in white or gray; it's almost a shame to sell them at—

49c

A large 11-4 heavy fleeced, gray Blanket; positively a gift at—

75c

A very pretty assortment of pattern Blankets, such as stripes, plaids, etc., is worth its weight in robes, at—

98c

Besides we are showing a 10-4 strictly all-wool white Blanket where can you equal it at—

\$2.75

You can buy here the best all-wool, natural gray Blanket ever shown in Duluth for—

\$3.50

An extra heavy, all-wool natural gray Blanket, that weighs five pounds, is worth its weight in gold, only—

\$4.95

Then we have a few fine white Blankets left over from last season in the 11-4 and 12-4 sizes, which are being sold at a song, to close them out.

IF YOU DON'T BUY AT POWER'S YOU DON'T GET THE BEST!

HAND-KERCHIEFS

They're good size and of good linen. Some of them are handsomely initialed, others are not. The open work embroidery is all done by hand. The price we ask for the handkerchiefs wouldn't pay for the embroidery, if done here.

25 dozen Ladies' Plain Hemmed Handkerchiefs, to sell Thursday only, at—

19c

1 lot of Ladies' Hemmed Embroidered Handkerchiefs, cannot be duplicated in the city for what we sell—15c to 18c, Thursday's special, a yard—

15c to 18c

REBBS.

32c

25 pieces Fancy Striped and Plaid Ribbons, always sold by us for 38c and 45c a yard, for Thursday's special—

29c

25c a yard for a good all silk Taffeta 5 1/2 inches wide and never sold for less than—

35c

New Gloves! New Mittens! New Ribbons!

LADIES' HOSIERY

No wonder Ladies go wild over our stock; not at all strange that sales are brisk. You couldn't match the goods in beauty and quality, to say nothing of the low prices. Just a hint to kind and prices.

Ladies' Onyx Rime Brilliant Lace Lisle Hose, high spliced heel, toe and sole, worth from 85c to \$1.25, all go for—

75c

Ladies' Hermsdorf Black Hose, high spliced heel, toe and sole, 40 gauge, worth 40c, go at—

25c

Ladies' Black Ribbed Hose, extra fine, high spliced heel, toe and sole, a great bargain at 45c, now selling at—

DULUTH, MINNESOTA.

LUMBER NOT ACTIVE.

Little is Doing But Prices Are Held Firm.

The lumber business in Duluth is very quiet just now, and the indications are that few sales of importance will be made here before the close of navigation. Lumber dealers are holding their stocks at a decided advance over ruling prices of a month ago, and this coupled with the fact that freight rates have been climbing upward steadily, has discouraged buyers from investing heavily. The sales of only occasional small lots that buyers have been forced to purchase to supply their trade are being made. Most of the local lumbermen do not appear anxious to sell even at prices at which their stocks are quoted, as a rule being unwilling to make any concessions, not even the usual cash discounts. There is a general feeling that there will be a brisk demand for lumber from the West during the winter, much faith being placed in this supposition because of the large prices received by farmers from their wheat crops. Millmen count on a heavy cut trade during the winter, and for that reason are not over anxious to dispose of their stocks to Eastern buyers. Few buyers from the East have been in town during the past few weeks, and those who have been here have either bought sparingly or not at all.

HAD SIX HUSBANDS.

Despite Her Beard—Death of a Montana Freak.

With the death of Mrs. Julia Hamilton, the bearded woman at the county farm, at Great Falls, Mont., a book of romance is closed and all delus have been canceled, says the Anaconda Standard. During her eight years' residence there probably was not over a hundred people knew that Mrs. Hamilton's first duty every morning was to shave, and thus a growth of beard as luxuriant as man's hair was kept from the world's view. Deserted and alone, with not a crust of bread in her house, the old lady was found a few weeks ago by her neighbors. She was ill and had not shaved for several weeks, and had a beard three inches long, covering her chin and sides of her face. She was taken to the county hospital, where she passed away, and was buried by the county. Just before her death she told that during her life she had been married six times, and each of her husbands had deserted her. She came to Great Falls about eight years ago from Vermont. In the fall of 1888 R. C. Adams, an old Grand Army man, decided that he wanted a wife. He advertised in the local papers for a matron and a woman, and among his answers was one from the woman who has just died. Photos were exchanged and Adams sent money to bring her on. On her arrival Adams discovered that she was not the original of the picture, and after her long trip had quite a goodly number of whiskers. He refused point blank to marry her.

strange woman's predicament, went to Adams and gave him just 30 many hours to have the extremity performed. He obeyed, and they were made one at the Ulm house. A few months later Adams jumped his claim, and has never since been heard of. He left her some property and a few years later she met and married a man named Hamilton. Her wedded life again was short, for in a few months life again was short, for in a few months Hamilton deserted her and is now in the West.

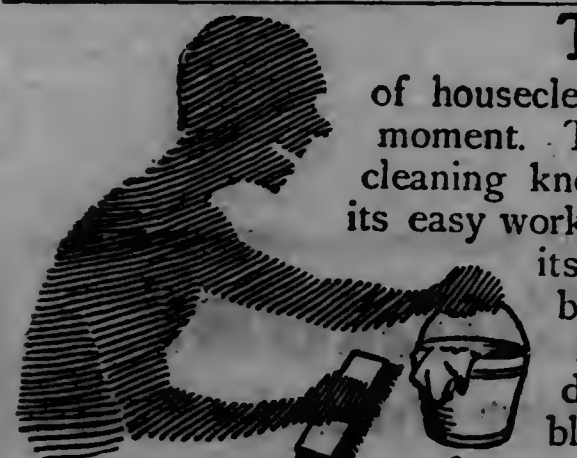

Of late years her income had been meager and at times county aid was necessary. She had been in the county hospital about a month. After Hamilton deserted her she is credited with the remark, "The last husband gone," and later explained that she was married four times in Vermont.

You may never know it happened if you fail to read The Evening Herald.

The spectre

of housecleaning needn't trouble you a moment. The person that dreads housecleaning knows nothing of Pearline—of its easy work, its quickness and comfort, its saving of paint and of rubbing. Go over everything with Pearline—floors, doors, windows, woodwork, paint, marble, stone, glass, carpets, bric-a-brac—and you'll get through any cleaning job in the shortest time, and with the least labor and fuss. You don't need any other help. Pearline is meant to wash everything that water won't hurt.

Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearline." FALSE—Pearline is never peddled; if you grocer tells you an imitation, be honest—use it fast.

Beware

you an imitation, be honest—use it fast.

**RED
ROUGH
HANDS**

Itching, scaly, bleeding palms, chapped nails, and painful finger ends, pimples, blackheads, oily, mothly skin, dry, thin, and falling hair, itching scalp, and all the troubles that come from a diseased scalp, and gentle assistance with CUTICURA (ointment), the great skin cure.

Cuticura

It is sold throughout the world. For sale by Druggists and Chemists. Cuticura is made in the U.S.A. by J.C. Ayer & Co., Lowell, Mass., U.S.A.

ITCHING HUMORS: Tendency toward CUTICURA REMEDY.

SURE OF SUCCESS

Hoke Smith, Ex-Secretary of the Interior, on the Democratic Outlook.

THE PROSPECT GOOD

He Feels Certain That the Next President Will Be a Democrat.

Washington, Sept. 22.—Hoke Smith, of Atlanta, Ga., who was secretary of the interior under the last Cleveland administration, is well pleased with the outlook for the Democratic party and expects to see the party united and victorious in 1909.

Mr. Smith was in Washington a day or two ago and while he talked very freely and hopefully about the future of Democracy, he also pointed out some elements in the organization which are apparently irreconcilable, but he thinks the extremists will be sent to the rear and that there will be a compromise of differences which have caused disruption in the past.

Mr. Smith is absolutely confident that a Democratic president will be elected to succeed the present occupant of the White House.

"The outlook for Democracy is very bright," he said, "Democrats are going to get together everywhere and when the party is united it is invincible. The leaders in New York are setting an example to the party throughout the country will do well to follow. I have no doubt that the state of New York will elect a Democratic ticket this fall, and it is generally conceded, even by the Republicans, that the first mayor of greater New York will be a Democrat."

"I have recently talked with some of the Tammany managers and they are confident of success in the mayoralty campaign. The Tammany candidate for mayor will be supported by a united Democracy and will also receive the votes of those Republicans who are disgusted with the present city administration. The policy adopted in New York, if followed by the party generally will result in a complete reclamation of the elements which have not lately been won back to the party."

"Democrats will elect a majority in the next house and will be victorious in the next presidential campaign. The voters who deserted the party last year because of the money issue are anxious to come back into the fold. They are greatly disappointed in the McKinley administration. They expected some legislation would be done for the interest of currency reform. The Republicans, instead of doing anything for currency, have given us another rubber tariff law."

"The action of the president in reviving the race issue by the appointment of colored men to office in the South makes it impossible for the party to hold the ground it has gained in that section. We never have any trouble about the race question when a Democrat occupies the White House. The issue raised by Mr. McKinley will cost the Republican party thousands of votes at the elections to be held this fall in Kentucky and Maryland."

CONDENSED DISPATCHES.

The first child ever born in the Minnesota penitentiary at Stillwater during the entire history of that institution made its debut at 4 o'clock yesterday morning. The mother is Nellie Brayer, who is serving a life sentence for the murder of the seven-year-old son of David Maxwell, at Stillwater.

George Utman, one of the gentlemen held up and robbed on the Great Northern near Smith Lake, Minn., Monday, October 1, took three heavy threats of violence were threatened and John F. Elmer, who is under arrest, was not one of the party. He was released when the location of the train before the robbery.

All the roads of the Western Passenger association were notified yesterday that after Sept. 30 the sale of summer tourist tickets must cease, that being the date of the original agreement for the purchase of the sale of the tickets.

At Albany, N. Y., the mayor ordered the removal of the statue of John Jay from the city hall. The statue was removed from the city hall and placed in the city hall.

At Chicago, Ill., the police arrested a man who was found with a large quantity of opium in his possession. The man was found with a large quantity of opium in his possession.

DOCTORS HAD GIVEN HER UP.

A Convincing Letter From One of Mrs. Pinkham's Admirers.

No woman can look fresh and fair who is suffering from displacement of the womb. It is ridiculous to suppose that such a difficulty can be cured by an artificial support like a pessary.

Artificial supports make matters worse, for they take away all the chance of the ligaments recovering their vigor and tone. Use Strengtheners; the ligaments have a way to do.

If they grow flabby and refuse to hold the womb in place, there is but one remedy, and that is to strengthen their fibres and draw the cords back into their normal condition, thus righting the position of the womb.

Lydia E. Pinkham's Vegetable Compound is designed especially for this purpose, and, taken in connection with her Sanative Wash, applied locally, will tone up the uterine system, strengthening the cords or ligaments which hold up the womb.

Any woman who suspects that she has this trouble—and she will know it by a dragging weight in the lower abdomen, irritability of the bladder and rectum, great fatigue in walking, and leucorrhœa—should promptly commence the use of Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham, Lynn, Mass., stating freely all symptoms. You will receive a prompt letter of advice free of charge. All letters are read and answered by women only. The following letter relates to an unusual case of displacement of the womb, which was cured by the Pinkham remedies. It is convincing:

"Lydia E. Pinkham's Vegetable Compound and Blood Purifier cured me when the doctors had given me up. I had spent hundreds of dollars searching for a cure, but found it in the oriole until I began the Pinkham remedies."

I had falling and displacement of the womb so badly that for two years I could not walk across the floor. I also had profuse menstruation, kidney, liver, and stomach trouble. The doctors said my case was hopeless. I had taken only four bottles of the Vegetable Compound and one of the Blood Purifier when I felt like a new person.

much to the surprise of my friends, for they all gave me up to die. Now many of my lady friends are using Lydia E. Pinkham's Vegetable Compound through my recommendation, and are regaining health. It has also cured my little son of kidney trouble. I would advise every suffering woman in the land to write to Mrs. Pinkham for aid.—Mrs. BAMA PARSONS, Alanson, Mich.

much to the surprise of my friends, for they all gave me up to die. Now many of my lady friends are using Lydia E. Pinkham's Vegetable Compound through my recommendation, and are regaining health. It has also cured my little son of kidney trouble. I would advise every suffering woman in the land to write to Mrs. Pinkham for aid.—Mrs. BAMA PARSONS, Alanson, Mich.

Lydia E. Pinkham's Vegetable Compound and Blood Purifier cured me when the doctors had given me up. I had spent hundreds of dollars searching for a cure, but found it in the oriole until I began the Pinkham remedies."

I had falling and displacement of the womb so badly that for two years I could not walk across the floor. I also had profuse menstruation, kidney, liver, and stomach trouble. The doctors said my case was hopeless. I had taken only four bottles of the Vegetable Compound and one of the Blood Purifier when I felt like a new person.

HE DIDN'T BUDGE.

Neither Demands Nor Diamonds Moved the Chicago Man.

There were not many seats vacant in the Indiana avenue when the lady with the diamonds and the daughter got on down town, narrates the Chicago Chronicle. The daughter was dejected and modest, the diamonds were outspoken and obtrusive. The lady, who very evidently owned both, was large and self-satisfied.

The man with the stubby mustache sat reading a paper next to a vacant seat in the car. He had no such intention of reporting on the lady and her daughter, but he was not a stranger to the city.

The man with the stubby mustache sat reading a paper next to a vacant seat in the car. He had no such intention of reporting on the lady and her daughter, but he was not a stranger to the city.

The County Fair

If you are going to buy a Stove, no matter what kind, it will pay you to visit the County Fair. All the large firms handling Stoves will have exhibits there. Among them will be a large line of cooking and heating Stoves from the Kelley Hardware Co. WE KNOW that we have the largest and best line, and we are only too willing to give the prospective buyer a chance to compare our Stoves with those of our competitors. They all carry good lines, but there is only ONE BEST LINE. Come and judge for yourself. Let us give you a pointer how to buy a Stove: Ask your neighbor about their's. It's ten to one it came from our store, and if you can find a family in this city that has a

RADIANT HOME STOVE

that is not pleased with it, we will make you a present of the best Stove we have in the house. WE WILL NOT sell a Stove that we cannot guarantee to give satisfaction. If you do not go to the Fair, call at our store and see our line.

KELLEY HARDWARE CO.

PEPPERY VINCENT

Luetgert's Leading Attorney Hints at Police Intimidation of Defense's Witnesses.

DENEEN RILES HIM

Rosa Gleich Flatly Contradicts the Testimony of the Schimpke Girls.

Chicago, Sept. 23.—The Luetgert trial opened today with a sensational intimation by ex-Judge Vincent that the police were intimidating the witnesses for the defense. Ex-Judge Vincent soon after court opened asked the jury to be excluded while he made a statement to the court.

After the jury had retired ex-Judge Vincent with indignation in his face and force in the declaration, said: "If the court please there is strong reason to believe that the police are interfering with witnesses for the defense and trying to intimidate them. I do not say absolutely that this is true, but the indications point almost directly to that conclusion. I desire an order of court prohibiting such action on the part of the police or the prosecution."

"Why not make the injunction cover both sides?" suggested State's Attorney Deneen.

"The court does not require instructions from any of the attorneys engaged," sharply responded Judge Tutthill. "The court does not require instructions from any of the attorneys engaged," sharply responded Judge Tutthill. "The court does not require instructions from any of the attorneys engaged," sharply responded Judge Tutthill.

"Why not order an investigation?" queried State's Attorney Deneen.

"Mr. Deneen, this court will make the order it deems proper," Judge Tutthill said. "When the jury was recalled Rosa Gleich, who is the sister of the defendant, was examined by the prosecution for cross-examination. This witness was called yesterday to impeach the evidence of the Schimpke girls."

She stated that she was with Emma Schimpke on the night of the murder. She denied emphatically that she had seen the Schimpke girls until the latter entered her home. She denied emphatically that she had seen the Schimpke girls until the latter entered her home. She denied emphatically that she had seen the Schimpke girls until the latter entered her home.

She denied also that Gottlieb Schimpke, her brother-in-law, was with her on the night of the murder. She denied also that Gottlieb Schimpke, her brother-in-law, was with her on the night of the murder. She denied also that Gottlieb Schimpke, her brother-in-law, was with her on the night of the murder.

State's Attorney Deneen went at this witness with one of the most remarkable cross-examinations ever heard in the criminal court. His questions were directed at a repeating rifle worked to the limit of its speed. The witness was questioned for a long time, but she was not as resentful as the lawyer, and after half an hour she became confused and her face blazed with excitement. Then she began to contradict herself as to important particulars and made corrections which weakened her evidence.

The crowd at the court house today was larger than usual and the struggle to secure admission to the court room partook of the nature of a riot. Hundreds were turned away and the officers of the law made several encounters with unruly visitors.

Harry Fiedler corroborated Rosa Gleich's story and asserted that the mother of the Schimpke girl compelled the latter to tell the story she did.

George Sholey, a bartender at the Maple house in Kenosha, Wis., testified that he saw Luetgert on the night of May 3. He said she came into his saloon weary and with bedraggled skirts as if she had walked far. She inquired the direction to the house of a farmer named Mueller. The following day, Sholey said, he saw the woman again at Spring Bluff, a saloon at Kenosha. Sholey was not acquainted with Mrs. Luetgert, but from the description of her he was positive the woman he saw was she.

SHOT HIS FATHER-IN-LAW.

Because the Old Man Refused His Blessing.

Ridgely, Conn., Sept. 23.—James Kelley, about 29 years of age, residing in Lewisboro, N. Y., shot and instantly killed Charles Mead, his father-in-law, aged 59 years, at the latter's home in Lewisboro, last night. The bullet lodged in Mead's breast just above the heart. According to the story which has reached this place, Kelley, three weeks ago eloped with the 18-year-old daughter of Mead. The couple returned to Lewisboro, after their marriage, but failed to receive the blessing of the father of the bride. The young man, last night and the shooting resulted. Kelley was arrested soon after the tragedy.

INTERNATIONAL CHESS.

Berlin, Sept. 23.—The first round of the international chess masters' tournament was played today. Up to 10 o'clock the following were the results: Schlechter and Blackburne, drew; Janowski beat Albin; Schlechter won against Bartleien (retired). The game left unfinished between Schlechter and Blackburne was drawn.

STATE SENATOR'S WEDDING.

Cantor, of New York, Marries a Prominent Chicago Girl.

Chicago, Sept. 23.—The wedding of State Senator Jacob A. Cantor of New York to Miss Lydia Miriam Greenbaum was celebrated at high noon today. The ceremony took place at the residence of the bride's parents, Mr. and Mrs. David J. Greenbaum, 3168 South Park avenue, the Rev. Dr. B. G. Hirsch officiating. The wedding was private, and only a few immediate friends were present.

The bride wore a traveling gown of light tan colored cloth, braided, jacket faced with French green velvet. The hat was of soft felt, trimmed with lace and black ostrich feathers. Flaming the throat of the jacket was the groom's gift, a brooch of pearls and diamonds. The bridegroom was attended by Richard Croker, of New York, as best man.

The presents were magnificent, one of the most notable being a complete silver service from Senator A. N. Hanger of New York. Immediately after the breakfast Senator and Mrs. Cantor left on a wedding journey through the West. They will live at the Marie Antoinette in New York city.

SHOULD INTERFERE.

Governor Clough Expresses Sentiment of Minnesota on the Cuban Question.

Washington, Sept. 23.—(Special to The Herald.)—In response to the request of the New York Journal for his views as to the sentiment of the people of Minnesota on the Cuban question, Governor Clough telegraphs the following:

"The United States government can now interfere in the interests of Cuba with propriety. The sentiment of the people of Minnesota is strongly in favor of the Cuban patriots and will, I am sure, induce any action that may be taken by the government in their behalf. Gen. Weyler's conduct in Cuba has been that of a monster, and the queen of Spain should be urged to put an end to the butcheries he has inaugurated in carrying out his campaign. The United States government ought to act at once in this matter. The Cuban question has been neglected too long."

THE LONDON BANKERS.

Present Protest to Old Lady of Threadneedle Street.

London, Sept. 23.—The protest which the London bankers drew up at their meeting in the clearing house yesterday, against the policy of the government of the Bank of England in announcing its willingness to maintain one-fifth of the London reserve in silver was presented to the bank today. The resolution itself is in the name of the clearing house and is signed by the bankers. The resolution, which is as follows: "That this meeting entirely disapproves of the policy of the Bank of England in announcing its willingness to exercise the option, permitted by the Bank of England, of holding one-fifth of any other property whatever of silver as a reserve against the circulation of the Bank of England's notes. That a copy of this resolution be sent to the Bank of England, the prime minister, and the chancellor of the exchequer."

An organized movement has begun to induce the cabinet and the cabinet to protest against this announcement of the governor of the Bank of England. A high official of the Bank of England in the negotiations between the United States bimetallic commissioners and the British cabinet, said today: "I fear the bankers will frighten the government into receding from their stand for bimetalism. They have forgotten that parliament unanimously resolved measures to secure a stable state of exchange between gold and silver."

Michael Hicks-Beach (the chancellor of the exchequer), pledged himself to do all in his power to carry the resolution into effect. The English public have forgotten also that the situation now is that of the agriculture commission signed a report commending bimetalism as a solution of the problem of depression in England. The public and the newspapers seem to think that the government is merely by design desirous to secure the good will of the United States when it is attempting to carry out the declared policy of parliament."

A NEWSPAPER OPINION.

London, Sept. 23.—The Evening Standard, referring to the bankers' protest against the action of the governor of the Bank of England, says: "The public is confidently expecting the government to carry out the policy of the Bank of England. The public and the newspapers seem to think that the government is merely by design desirous to secure the good will of the United States when it is attempting to carry out the declared policy of parliament."

McKINLEY'S VACATION.

He and His Party Enjoy the Adams Visit.

Adams, Mass., Sept. 23.—President McKinley and the other members of his party rested today. It was nearly 7 o'clock when President and Mrs. McKinley made their appearance at the breakfast table at the Plunkett residence. The night's rest had worked wonders in both, and all traces of weariness and care had disappeared.

The Messrs. McKinley and McKenna, after early and enjoyed a walk through the beautiful grounds before breakfast. Attorney General McKenna, who was slightly indisposed yesterday afternoon, was in the best of spirits this morning. Secretary and Mrs. Long came over from the residence of O. T. Plunkett, a brother of the president's host, where they are being entertained, shortly after the morning meal was over, and the entire party enjoyed a quiet hour upon the broad piazza.

OOM PAUL'S HEALTH.

London, Sept. 23.—A special dispatch from Pretoria, Transvaal Republic, says that the health of President Kruger is causing anxiety to his friends.

MAY STOP EXPORTING.

St. Petersburg, Sept. 23.—It is asserted by the Russian government that it will shortly prohibit the exportation of wheat from Russia.

THIRTY STRICKEN

Yesterday's Official List of Yellow Fever Cases a Long One.

ST. LOUIS IS FREE

Baggage From Infected Points to Be Fumigated—Day's Developments.

Washington, Sept. 23.—Surgeon General Wyman today sent to several state boards of health the following bulletin summarizing the yellow fever situation: The following cases of yellow fever were officially reported as occurring on the 22nd: New Orleans, 12; Mobile, 4; Edwards, Miss., 13; Beaumont, Tex., 1. Cases from Omaha, Springfield, Biloxi and Scanton, Miss., delayed. Suspected case at St. Louis reported as malaria. No cases in a few days to announce that the fever, which started first in the middle of the month, has been completely stamped out. The patients of that square, except in one house, are nearly well. The temperature this morning was lower than for any day this week, and last night was extremely cool. However, scientists may differ as to the effect of low temperatures on the spread of yellow fever. The change here has had the effect of increasing public confidence and of Dr. Toustait that there is absolutely no danger here of an epidemic. The city will hold a special session at noon today to consider the arrangement made yesterday by which the city's fiscal agents are to advance \$25,000 to the board of health to assist it in carrying on its fight against yellow fever. Some objection has been made by the councilmen on the ground that the money ought to be expended in the city and that the state ought to make provision for the work of the board of health. Requests are being made to the board of health to close the theaters. The board, however, has taken no action in the premises.

Shortly after 10 o'clock this morning two deaths from yellow fever were reported at the board of health. They were Marie Detbos, a child, living on St. Charles street, between Cherokee and Hillary, who was taken sick on Sept. 16, and C. Secreto, of 815 Birch street. Both of these deaths occurred in the upper portion of the city. One new case also reported at the board of health. It is that of Edgar Roy at Michigan and Esplanade streets. Sickness already exists in the remainder of the city. The total number of cases up to the present writing has been eighty. There have been ten deaths in all. The death rate is a trifle over 12 per cent.

EDWARDS HAS NINETY CASES.

Nine of Them New Since Last Night.

Edwards, Miss., Sept. 23.—New cases of yellow fever reported since 8 p. m. yesterday are: Mrs. J. P. Pool, Dr. W. A. Ratcliff, Mrs. Martin, W. G. Reddick, George Wallinger, Mrs. Scott Noblit, C. H. Nott, Frank White and Josephine Saunders (colored). There are the usual quota of suspects not yet seen by the doctors. All so far from recovery are doing fairly well. Mrs. Greaves, who has been dangerously sick, is reported improving, and the situation looks more cheerful. There are now in all ninety cases of yellow fever here.

Since the morning report the following are reported sick with yellow fever: Whites—Nick Perry, Miss Anna Slocomb, Mrs. J. D. White, colored—Patrick's child, M. Brown, S. Harris, Vincent Gowins. 35 deaths today. Mrs. Gray continues in a dangerous condition, but is better than yesterday. Mrs. R. H. Noblin and Mrs. Dr. Ratcliffe are quite ill, but not yet dangerously so. None are sick with black vomit today. Convalescents, 33; under treatment, 51.

MOBILE'S CONDITION.

Mobile, Ala., Sept. 23.—Noon report—Two new cases, Julia Marvis, Elmira street, near Broad; Henry P. Lullin, George Street, near Selma. No deaths. Ten patients discharged, leaving out of a total of 48 cases, 19 now under treatment. The discharged are Richard Murray, Milled Holcombe, Alice Bouhain, Colyar, Lettie Johnson, E. Schonenberger, Mrs. Schonenberger, Mrs. Ravier and Louis Ravier.

VICKSBURG HEALTHY.

Vicksburg, Miss., Sept. 23.—Vicksburg and Warren county remain absolutely healthy, with no suspicious cases in their borders.

KILLED TWO SHERIFFS.

Also Another Man—Fatal Indian Territory Quarrel.

Kansas City, Mo., Sept. 23.—A special to the Star from Tahlequah, I. T., says: "At Saline court house, David Ridge, sheriff of the Saline district, Jesse Sams, sheriff of the Cherokee district, and Thomas Bagozi, (white), were killed in a drunken brawl by Samson Batt. Batt was shot dead."

GOLD COMING BACK.

New York, Sept. 23.—The Le Touraine of the French steamship line, which sails from Havre on Saturday next, will bring to this port \$1,000,000 in gold consigned to the Hanover National bank of New York.

GILBERT GETS IT.

He Will Cut the Timber on the Red Cliff Indian Reservation.

CANADIAN GOVERNMENT.

Well Pleased With McKenna's Decision on Section 22.

Ottawa, Ont., Sept. 23.—The secretary of state today said the decision of Attorney General McKenna at Washington against section 22 of the Dingley tariff law had been received by the Dominion government with much satisfaction. The officials regarded the decision as an evidence of friendliness on the part of the United States toward Canada.

He considered Attorney General McKenna had rendered his decision on broad and liberal lines and in the spirit of good neighborhood. To wipe out the bending privilege would create monopolies among transportation lines in both countries.

OHIO DEMOCRATS.

State Campaign Now Opened and a Big Meeting Set For Columbus.

Columbus, Ohio, Sept. 23.—The silver wing of Democrats opened their state campaign in Ohio today. Each county is to hold a meeting, but the grand central meeting is set for this city tonight. Word has been received that all of the speakers will be present. H. L. Chapman, candidate for governor, has talked some in the campaign, but this will be his first speech of importance. The committee has dispensed with the usual parade. The Fourteenth Ohio National Guard band will be at the large auditorium in which the meeting is to be held. The other speakers are to be introduced by a short introductory by Allen W. Thurman, the chairman. The indications are for a large attendance.

A long list of vice presidents, headed by Mayor Samuel L. Black and Col. James Kilbourne, will occupy the stage, the object being to have each city, ward, township and certain school districts especially represented by one of its leading silver Democrats on the stage. The purpose was to have a meeting tonight in each school district of the state, but in this committee say they will not be successful. The county meetings, however, they say, are assured.

BRACING ITS COINAGE.

San Domingo Prohibits American or Mexican Money.

New York, Sept. 23.—D. R. Ceballos, an English speaking Mexican, who arrived here on the steamer Jamaica, from Sanchez San Domingo, today, says that President Lillo, of San Domingo, has issued a decree forbidding the admittance of American and Mexican money into San Domingo and prohibiting its use there. This decree, which is to take effect on Oct. 9, is aimed at the commercial classes, who had been preferring American and Mexican money to the San Domingan coin, which is depreciated in value. The San Domingan dollar is worth 30 to 35 cents. About \$1,000,000 or \$2,000,000 of American and Mexican money is employed annually in business transactions in San Domingo.

DROPPED POLITICS.

Tim Byrnes In Washington But Failed to Call on the President.

Washington, Sept. 23.—(Special to The Herald.)—T. E. Byrnes, of Minneapolis, who has been mentioned lately as the coming Republican boss of Minnesota, has been in Washington since Monday and yet made no attempt to see either the president or the attorney general. This is regarded here as an indication that Byrnes has abandoned the contest for the district attorneyship of Minnesota and will permit this prize to go to some other Republican politician. He asserts that he has dropped politics for the present and is giving his time exclusively to his law practice. The fact that he failed to call at the White House, although the president did not leave Washington for two days after Byrnes' arrival, would indicate that he had really given up the fight for the district attorneyship. Heretofore he has been a daily visitor at the executive mansion while in Washington since President McKinley's inauguration.

SCHOOL STRIKE OVER.

Chicago, Sept. 23.—The strike on all the school buildings of the city is ended. The board by a vote of 12 to 2 has adopted the report of the arbitration committee, inserting the union labor clause in all building contracts. It also ordered Attorney Morrill to immediately institute legal proceedings before Judge Tuley, under the state arbitration act, to ascertain if it had the legal right to adopt this clause.

OLD JIMMY LANE DEAD.

Chicago, Sept. 23.—James Lane, 102 years old, familiarly known as "Uncle Jimmy" Lane, one of the oldest residents of Chicago, died today of old age. He was born in Ireland on St. Patrick's day, 1796, and came to America in 1833, coming to Chicago in 1855.

COMMISSIONER EVANS ILL.

Columbus, Sept. 23.—Hon. H. Clay Evans, commissioner of pensions, is confined to his room at the Chittenden hotel with temporary illness.

Grand Fall and Winter Op'ning AT

Panton & White's Glass Block Store Tomorrow, Friday.

Every lady visiting our Cloak and Millinery Depts. will receive a bouquet fresh cut Roses. Saturday the store remains open until 10 p. m.

You will miss it

Phillips & Co.

218 West Superior Street.

KNOW HOW TO KEEP PACE.

ARE VERY NUMEROUS.

Duluth Business Men Know How to Continue in Line.

Readers of The Evening Herald will find much to interest them in the advertising columns of tomorrow's issue. The art of newspaper advertising has shown wonderful development in recent years and the merchants of Duluth have not permitted themselves to be run over by the wheels of progress, but have kept well up in the front ranks of the profession. They have devoted careful study to the business and know just how and when to invite the attention of the public to their wares. They have learned that results largely depend upon the medium to be used and the attractiveness with which their announcements are set forth. Not only the intelligent and careful wording of the advertisement is requisite, but the artistic skill of the printer must be considered if the interest of the desired customer is to be engaged. Duluth advertisers know what to say and how to say it, and a long experience has taught them that the Friday Evening Herald gives them the desired publicity because it circulates among the entire reading population of Duluth and vicinity. Those who make a practice of reading the advertising columns of the Friday Evening Herald are not only highly entertained, but they are given information which invariably proves profitable to them when doing their usual Saturday marketing. Many families save annually in this way twenty times the cost of the paper. Tomorrow's Herald will contain its usual large quantity of attractive advertisements.

ALL THROUGH A JOKE.

Two Men in Irish Mud's Audience Have a Fight.

James Wilson was arraigned before Judge Edson this morning, charged with assaulting N. F. Moore. It seems that the defendant and the complainant were listening to the remarks of a peddler known as "Irish Mud," who was discoursing at the corner of Superior street and Fifth avenue last night. Mears exploded a loud laugh at one of the peddler's jokes, whereupon Mears says Wilson struck him. Just exactly why Wilson did this, nobody seemed able to explain. It was possible that Wilson thought that Mears ought to be thrashed for laughing at him, or because Wilson felt nettled that Mears should see the point when he could not. Mears struck back and the two punched and clawed each other until separated by others present.

This morning Mears swore out a warrant and had Wilson arrested. The latter pleaded guilty and was fined \$1 and costs, which he paid.

You should be in our directory, it will be in all the homes.

RIGHT IN LINE

for Fall trade is where you can now find THE SHREWDEST MERCHANTS. They're the biggest and most successful ones, too, and if you want to know their names you can see them from day to day in The Evening Herald. They know how to reach people who have money to spend these hard times. They know where to advertise

FOR RESULTS

Surveying Parties in the Field on All Sides.

There are enough railroad surveying parties working around Duluth and on the Mesaba range, if one-half the current reports are true, to gridiron the whole country with railroad lines and have a few to spare to cut across corners. A few days ago a large party ran a line across the Duluth, Missabe & Northern, just below Iron Mountain toward Duluth from Hibbing. Another party has been known to have put in several weeks back of and around New Duluth and there are many people who associate the surveyors that they are preparing for the construction of some branch lines. However there are more surveying parties reported and it is not a difficult matter to make a guess as to what this and that corps of engineers is supposed to be driving at.

THE DEFENDANTS WIN.

Battle Creek Bank Loses to Mendall & Hartley.

The case of the National bank of Battle Creek, Mich., against Luther Mendall and G. G. Hartley was given to the jury yesterday afternoon. Judge Cant having denied the motion of the bank to dismiss the case, the jury was directed to direct a verdict for the defendants. The verdict was reached after court adjourned, and it was turned in to the court this morning and proved to be for the defendants. The suit was to recover \$200 on a note given to the Duplex Printing Press company, the note being endorsed first to a third party and then to the bank. The defense was that when the deal with the press company was made it was agreed that the defendants were to withhold \$2500 to secure them from suits for infringement of the patent of another press company. The jury then returned their verdict also considered, according to one of their number, that the bank in trying to collect the money had gone to the defendants in their order on the note instead of coming to the defendants. The plaintiff received a verdict of twenty days and entered a motion for a retrial.

Judge Cant this afternoon gave the case of E. J. Phelps against the Duluth Hardware company to the jury. The suit is to recover rent for a store building. Judge Cant this morning took up the second trial of the case of M. J. Clark against the B. B. Richards Lumber company and the Duluth Trust company, its receiver. Clark is, or was, the fee owner of the pine lands from which the B. B. Richards Lumber company took its timber. The lumber company had a contract to purchase the timber from Clark on instalments, but the contract was never recorded until long after it was made and put in operation. Clark claims that the terms of the contract were never fulfilled, and he asks to have it set aside and the property given back to him.

Died of Typhoid Fever.

Miss Viola Kipp, of St. Paul, who spent a considerable portion of the summer here, died yesterday morning at St. Paul of typhoid fever. Miss Kipp was the guest of Miss Kroeber for a number of weeks and was a charming young lady, making many friends during her stay here. She was taken with the fever a few days after returning home and was ill only about ten days or two weeks.

Business Is Rushing.

Business in the United States land office has been rushing this week and the officers have been kept very busy. Many filings and final proofs are being made. The office was notified this morning of a denial of the motion for review made by the plaintiff in the case of F. Perst vs. Hans Solberg, in the evening Solberg's pre-emption entry in the case of Perst vs. Solberg was given sixty days to pay up.

Ladies of Duluth!

Madame Beuglet takes pleasure in announcing to her numerous customers Duluth and Superior that she has ready for inspection the finest of millinery which the art could produce. Watch for date of opening. Kitchi Gammi building, 22 Third avenue west.

SENATOR C. K. DAVIS

Arrived in Duluth This Afternoon and Will Make a Short Stay.

AROUND THE HARBOR

Looked Over the Government Work With Maj. Sears and Others.

Senator C. K. Davis arrived in the city this afternoon from St. Paul and took dinner at the Spaulding. While he was in the dining room a number of his friends and local politicians gathered in the hotel lobby, and when he came out of the elevator he was quietly surrounded and engaged in renewing old acquaintances and forming new ones. Arrangements had been made by Maj. Sears to give the distinguished visitor a ride about the harbor, and shortly after 2 o'clock the party boarded the Valotte and spent a few hours in looking over the government work and incidentally discussing the local political situation. Among those who accompanied the senator on the excursion this afternoon were Maj. C. B. Sears, Page Morris, G. A. Leland, F. B. Daugherty, Capt. Alex. McDougall, Ben Howard, J. M. Wilcox, C. O. D. Kinney and Monroe Nichols.

From the beginning of his career as a public man Senator Davis has taken an unflinching interest in the Duluth harbor and in particular in the navigation in general. From the time it was originally attempted to make a harbor at Duluth until now, when a deep-water channel from Duluth to the lower lakes is an accomplished fact, Senator Davis has worked incessantly for Minnesota's lake port. In an interview with a reporter for The Evening Herald this afternoon Senator Davis told briefly his connection with the interests of Duluth. He said in part:

"While I was governor of the state of Minnesota in 1874 and 1875, the construction of the present canal was commenced. It was a conception due in great part to the genius of William L. Hannan, of St. Paul, lately deceased, who was a man of extraordinary foresight and capacity. I immediately stirred up a great apprehension on the part of the people of Wisconsin, who backed up Superior, of course, and after various negotiations and litigations, one of which resulted in the construction of a dyke which fenced in a small portion of the present harbor of Duluth. The night time and then Wisconsin instituted a suit in the supreme court of the United States against the state of Minnesota, the city of Duluth and the Northern Pacific Railroad company, to restrain the construction of the canal because, it was alleged, it would divert the waters of the St. Louis river through the canal into Lake Superior, impairing the natural entrance. I retained an attorney to defend the suit, and he took great deal of testimony, which was of a highly scientific character. After my retirement from the office of governor, George A. Stone, of St. Paul, retained me to argue the case in the supreme court of the United States. The suit involved the right to construct the canal, which was not then the state of Wisconsin had been successful, an entire suspension of the work on the canal would have resulted. I argued the case before the supreme court and it was successful. The work went on and from that time I regard this as the most important litigation in which I was ever engaged. It was a far reaching, and will be permanent."

"When I was elected to the senate in 1887, I had the idea that the thing I had to consider with particular attention was the subject of water communication from Duluth through the Soo, and I immediately proceeded to give it very careful examination. I made up my mind that the present commerce under the old lock was such that the consequences to the Northwest would be disastrous if the construction of a new lock and the improvement of the channel were not expedited. I accordingly conceived the idea of a canal, which was to be constructed by the war department to execute this work by contract, looking forward to the years that must elapse before the completion of the old system, by which much work was done within the limits of annual appropriations, which were always inadequate, and which once, I think, were entirely suspended by failure to pass the river and harbor act. Anyhow, I thought the work could be completed within four or six years, while under the old system it would take from twelve to fifteen years."

Accordingly in 1888 I introduced an amendment to the river and harbor bill authorizing the completion of the new lock and the improvement of the Hay Lake channel to be done by contract and under the old system it would take from twelve to fifteen years. Everybody in Washington thought the scheme was impossible, although nobody could deny the force of the arguments which supported it. It was such a departure from the old method of executing public improvements of this character that I received, at first very little encouragement. In the course of my investigations upon this general subject, my attention had been attracted to Galveston harbor, Texas, and the immense construction of the harbor there."

Awarded Highest Honors—World's Fair.

DR. CREAM BAKING POWDER

MOST PERFECT MADE. A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant. 40 Years the Standard.

try tributary to it. The trouble with Galveston was a bar off the entrance to the natural harbor, and the necessity for the removal of that bar by jettying I conceived that the interests of Galveston and Duluth were identical in principle, and that each could be brought to the support of the other. Senator Coke of Texas, was a member of the committee on commerce, and after conference with him I drafted, as shippable to the harbor of Galveston, an amendment substantially in the form of the one which I had drafted for the improvement at the Soo, and we joined forces. He was able to bring the Southern Democracy to our assistance and the California people also came to our aid. I explained to Secretary Sherman the enormous interest that Ohio had in the great increase of commerce which would result from the improvement at the Soo, and secured his assistance after this explanation. The amendment prevailed in the senate and Senator Coke and I went over to the house and labored there with the same elements of assistance with the same success.

"The results are known. The lock was completed, and the work was done within a very few years, and I am informed by the engineer department, that less than would be necessary under the old system of proceeding. I regard the part which I took in the construction of the harbor of Galveston as the most important public service I have been able to render the people of this state and the Northwest."

Senator Davis will remain in Duluth a couple of days before returning to St. Paul.

CATHEDRAL BAZAR.

Will Be Given Oct. 4 to 9 on West Superior Street.

The annual cathedral bazar will open this year Oct. 4, and close Oct. 9, at 222 West Superior street. Every evening the Duluth Union orchestra will furnish fine music. Special attractions have been arranged to entertain the patrons of the bazar. Many Duluth merchants have already made valuable donations; they will be glad to see the display of goods will exceed that of any other year. Dinners and suppers will be served.

The following important contests will be held during the bazar: A beautiful Miami club night, when there will be a popular young ladies' Miss Anna McDaniel and Miss Anna Fitzpatrick; a beautiful doll contest, when Miss Mary L. Wilcox will be the best paying; a regular tug on "mud" was mixed daily with "Morris" until the latter morning, when the "mud" was used to last. That irrefragable street fakir known as "Irish Mud," based on a complaint for rejuvenating razor strops, which he sells, drifted into town two or three days ago and took up his stand at the Lyceum corner. Last night he was the best paying; a regular tug on "mud" was mixed daily with "Morris" until the latter morning, when the "mud" was used to last. That irrefragable street fakir known as "Irish Mud," based on a complaint for rejuvenating razor strops, which he sells, drifted into town two or three days ago and took up his stand at the Lyceum corner. Last night he was the best paying; a regular tug on "mud" was mixed daily with "Morris" until the latter morning, when the "mud" was used to last.

Now, this may seem to many a mere incident having no significance whatever, but the truth is that it is full of meaning. It has an inside history. "Irish Mud" did not come here merely to sell his razor strops, but he had a purpose. There has been a decided slump in Morris stock and many of the old-time critics of the "Irish Mud" have taken up the cudgel and are ready to undertake the job set out for him. Since the politicians have all deserting Morris the masses must be won over and "Irish Mud" has been turned loose on the masses.

When "Irish Mud" arrived in town he took him up to the Kitchi Gammi club night before last. Page Morris was there engaged in friendly conversation with a few men and Wilcox called him out. The three had a confab and it is supposed that Morris noted his 14 year family record there for the edification of "Irish Mud," who made use of the information last night. Whether or not they put him up to making the assertion that Towne worked against the \$2 lumber duty everyone is entitled to guess for himself.

The result of the conference at his hotel last night is that "Irish Mud" returned to politics last night. Like a well-known newspaper man, whose mission was to "raise hell" and sell newspapers, he is to "raise hell" and sell mud, and the day that he will do the best is the day that he will do the best. He has already begun his campaign, he has marked the evening, letting his glance fall at the next fall of the mud, the mud of the custom house, where Boss Wilcox holds forth.

CITY HAS NO RIGHT.

Does Not Own the Street Running Through Park Point.

Judge Ensign filed his findings yesterday afternoon in the case of Fannie S. Wilder and W. R. Merriam against Mary S. Thompson et al, a case brought to clear up the confusion that now exists as to the ownership of property on Lower Minnesota Point. One important point submitted to Judge Ensign and decided by him was the question of the right of the city to the property covered by the street which runs through the Point and which is known as a continuation of Lake avenue. The property which would result from the improvement at the Soo, and we joined forces. He was able to bring the Southern Democracy to our assistance and the California people also came to our aid. I explained to Secretary Sherman the enormous interest that Ohio had in the great increase of commerce which would result from the improvement at the Soo, and secured his assistance after this explanation. The amendment prevailed in the senate and Senator Coke and I went over to the house and labored there with the same elements of assistance with the same success.

The suit was brought in partition, as the owners of the property wanted to clear up the confusion of the titles. The descriptions of the lands have been very vague, and while each owner knew what his interests were, or something about them, he could not tell just which land was his by looking at the map or the land. After deciding what the interests of the various parties are, Judge Ensign was asked to appoint a commission to make the partition of the property and allot to each owner the particular spot of ground that belongs to him. This he did in his findings, and he has appointed Ray W. Nichols, George W. Buck and C. H. Graves as disinterested and judicious citizens. They are to take the findings as to the titles of the property, and to lay out each man's piece of ground.

CAMPAIGN IS ON.

"Irish Mud" Brought Here to Trot Out the Morris Boom.

That irrefragable street fakir known as "Irish Mud," based on a complaint for rejuvenating razor strops, which he sells, drifted into town two or three days ago and took up his stand at the Lyceum corner. Last night he was the best paying; a regular tug on "mud" was mixed daily with "Morris" until the latter morning, when the "mud" was used to last. That irrefragable street fakir known as "Irish Mud," based on a complaint for rejuvenating razor strops, which he sells, drifted into town two or three days ago and took up his stand at the Lyceum corner. Last night he was the best paying; a regular tug on "mud" was mixed daily with "Morris" until the latter morning, when the "mud" was used to last.

Now, this may seem to many a mere incident having no significance whatever, but the truth is that it is full of meaning. It has an inside history. "Irish Mud" did not come here merely to sell his razor strops, but he had a purpose. There has been a decided slump in Morris stock and many of the old-time critics of the "Irish Mud" have taken up the cudgel and are ready to undertake the job set out for him. Since the politicians have all deserting Morris the masses must be won over and "Irish Mud" has been turned loose on the masses.

When "Irish Mud" arrived in town he took him up to the Kitchi Gammi club night before last. Page Morris was there engaged in friendly conversation with a few men and Wilcox called him out. The three had a confab and it is supposed that Morris noted his 14 year family record there for the edification of "Irish Mud," who made use of the information last night. The result of the conference at his hotel last night is that "Irish Mud" returned to politics last night. Like a well-known newspaper man, whose mission was to "raise hell" and sell newspapers, he is to "raise hell" and sell mud, and the day that he will do the best is the day that he will do the best. He has already begun his campaign, he has marked the evening, letting his glance fall at the next fall of the mud, the mud of the custom house, where Boss Wilcox holds forth.

The Doctor's New Teeth.

A Herald reporter who happened in at Dr. Schiffman's dental offices in the reception room crowded with waiting patients.

"What's all this doctor's day at home?" "This must be your day at home."

"Oh, no, I am always at home. This is simply the result of a little honest advertising. We are making teeth you know, for \$5 a set."

"What induced you to drop your price so low? Do you intend to keep on making teeth at that price?" "Why no means," said the doctor, "I have heard so much complaint from people of hard times and I have a great many patients for whom I extracted teeth long ago, who I know have been too poor to have an expensive plate made. I therefore came to the conclusion I would give them a chance to get a good \$10 set of teeth for \$5, and it would not be policy to let certain people have plates for \$5 that others were paying \$10 for. I determined to take a whole week and devote it to making their plates. But it now looks as though the demand for them would be so great that I would have to extend my time another week."

"Are these plates you are making strictly first class?" "For answer," the doctor opened his safe and showed tray upon tray filled with S. S. White and Justis' teeth, which are the most expensive teeth that can be bought. "I never use anything else," said the doctor, "it doesn't pay in the end. I want to do the best work that can be done, both in plate work and in crown and bridge work and in filling, and one must have the best materials in order to do good work."

Just then another lot of patients came in and the doctor had to excuse himself in order to attend to them.

Good meals served on the fair grounds by the fair association. Lunches from 5 cents up.

SUFFEL & CO.

THE GOLD COUNTRY.

David T. Adams and Party Return From a Trip Through the Region.

David T. Adams and J. J. McLaughlin, of Duluth; Nell McInnis, of Tower; C. W. Gelsen, of Calmar, Ia.; F. S. Cobb, of Buffalo, N. Y.; and M. W. Cobb, of Fredonia, N. Y., were members of a party that arrived in Duluth last night from the Rainy Lake and Seine River gold countries, where they have been on various expeditions connected with the search for gold. Messrs. Adams and McInnis have been looking over the field for the possible view of investment. Mr. Gelsen is president of the Lyle Mining company, which operates the Little American mine, M. W. and F. S. Cobb have been looking over some properties recently purchased by them, on which there are about to start development work. Mr. McLaughlin, who is interested in a number of properties in the Seine River country, has been in the gold country for several weeks, during which time he has been over the greater part of the properties that are being developed.

There are seventy-five men at work at the Foley mine and work is being rapidly pushed. The new steam compressor plant is on the ground and nearly up, and it will be in operation in less than two weeks. This will give the mine twelve new power drills, which will give an immense impetus to the work. The mill is still running, and gold licks are being turned out with great regularity. The new plant not only will give the output but it will be cut in two, but the cost of mining will be cut in two, and the vein is showing up splendidly at that depth.

The Preston property is the newest gold producer on the Seine. Last week Mr. Preston shipped to Rat Portage a brick weighing eighty-three ounces, and his mill is still running. The stamp mill at the A. D. 2 is also turning out gold. The Little American, who has been running in about two weeks. The shaft is now down 165 feet in an immense body of ore. They have run a cross-cut of eight feet and still have not found the walls of the vein. The Randolph is turning out the richest ore yet found in that section. They have a pile of ore on a dump, and it is said that one can pour water over the rough ore taken from the dump and show up a line of color in every part without crushing the ore. The shaft is now down eighty-six feet, and the vein is showing up splendidly at that depth.

Millinery.

All fashion lovers should call on Madame Beuglet for their fall and winter hats. The largest collection of pattern hats in the city. Kitchi Gammi building, 22 Third avenue west. Watch for date of opening.

No Witnesses Appeared.

When the case against Nathan Marcus, the proprietor of the auction store in the building known as Block 10, charged with using abusive language, was called this morning in Judge Edson's court, neither the complainant, Albert K. Fish, nor any of the four witnesses subpoenaed for the prosecution, were present. Assistant City Attorney George H. Garton indicated that their non-appearance might possibly be explained by the defense, but he received an explanation from that quarter. Mr. Rustgard, who is the comparative rival of the Fish, stated that the case be dismissed, the motion being granted by the court.

FOR HEAVY, SLUGGISH FEELING.

A FEVER OUTBREAK

Mob In New Orleans Attempt to Burn a Yellow Fever Hospital.

POLICE ARE VICTORS

Beat the Mob Back and Save the Building--Fever's Progress.

New Orleans, Sept. 24.—Efficient work by the fire department in face of the attacks of a mob enabled the department this morning to save the main portion of the Beauregard School building. Only the annexes of the structure were reduced to ashes. The alarm was sounded at 12:30 a. m. After the mass meeting of citizens, held last night, a mob of about 500 men gathered around the building and openly threatened that at the first opportunity they would fire it. Throughout yesterday evening Sister Agnes and a number of sisters of charity, together with the police, had been putting the building in order for the reception of yellow fever patients.

The school board, in the meantime, had removed from the building every desk and other article of furniture, and the hospital people had moved into the building and other necessary advances for the treatment of yellow fever patients. At nightfall Surgeon Bloom of the hospital, the sisters and others had been warned that they had best leave the building. They did so, headed by Sister Agnes, and threatened their way through a dense crowd of panic-stricken citizens. Then a small force of police were ordered to the scene.

But the mob, bent on incendiarism, were sharper than the guards, and, while the police were busily engaged in attempting to quell the riotous crowd in front of the building, two incendiaries, with a 5-gallon can of oil, proceeded to the rear and quickly had the building in flames. An alarm was turned in, but the first neighboring engine had scarcely arrived when its hose was cut. When other engines arrived their hose was also destroyed by the mob. Chief of Police and Capt. Journeaux finally arrived in a patrol wagon, with a big squad of officers, which beat the mob back.

Then the firemen went actively to work and succeeded in preventing the absolute destruction of the building. It is fair to say that the action of the mob is roundly denounced on all sides. The morning. The school, a handsome building, entirely isolated, and situated in the center of a large square. There was no danger of infection from it, and the people in the neighborhood are unduly alarmed. Unless, however, a company of soldiers is ordered out to protect the building, it is not improbable that a second attempt will be made to destroy it tonight.

There is only one new case reported this morning. It is a man, living on Bourbon street, and he is reported to be in a dangerous condition. Dr. Monluc is attending physician, and he is reported to be the case to the board. It was Dr. Monluc who said the other day that the prevailing sickness was Durham fever.

EDWARDS AFFLICTED.

Scourge Is Making Awful Headway in That City.

Edwards, Miss, Sept. 24.—New cases of yellow fever since 8 p. m. last night, are: Whites—Miss Urea Grode, Leroy Radliff, Miss Marie Lewis, A. J. Lewis, Sr., Miss Willie Ross, Mrs. S. E. Birdsong, R. W. Elliott, Mrs. R. W. Elliott, E. K. Noblin, Colonel—A. J. Jones, Harry Jones, Nancy Smith. Total to date, 12; total to date, 112.

Frank Townsend had black vomit all night and is in a dangerous condition. All others reported seriously ill yesterday are doing well.

No cases are reported discharged today. Cases under treatment have increased to seventy-six, with but four physicians. Their energies are sorely taxed. We need more doctors. Our people as a rule are adverse to appealing to Whites—Miss Urea Grode, Leroy Radliff, Miss Marie Lewis, A. J. Lewis, Sr., Miss Willie Ross, Mrs. S. E. Birdsong, R. W. Elliott, Mrs. R. W. Elliott, E. K. Noblin, Colonel—A. J. Jones, Harry Jones, Nancy Smith. Total to date, 12; total to date, 112.

Frank Townsend had black vomit all night and is in a dangerous condition. All others reported seriously ill yesterday are doing well.

A MOBILE VICTIM.

Roman Catholic Priest Dies of the Prevailing Scourge.

Mobile, Ala., Sept. 24.—Rev. Father Daniel Murray, the fifth victim of the yellow fever here, died last night, at 7 o'clock. He was a native of Cork, Ireland, aged 39, and had been in the country four years. He was formerly located near Birmingham, Ala., and had been located at Montgomery. He had intended to take a vacation this fall, but hearing that Father McQuillan was absent here, offered his services and arrived here on Sept. 8. He was taken sick on Sept. 20 and had intense fever from the start. He became delirious yesterday and died as stated above.

CALIFORNIA PRECAUTIONS.
San Francisco, Sept. 24.—The California state board of health is in daily telegraphic communication with Dr. Oliphant, chairman of the Louisiana state board of health, and is constantly advised on the condition of affairs in New Orleans and of the danger of the fever extending. The board has decided that if the disease continues to spread they will intercept every train coming from New Orleans, and if they find passengers afflicted, will quarantine the train, and put passengers in the hospital or detention.

BARGES FOR QUARANTINE.
Washington, Sept. 24.—Gen. Wilson,

chief of engineers, has telegraphed instructions to Lieut. M. M. Patrick, the engineer officer at Memphis, Tenn., to transfer two barges used in the improvement of the Mississippi river to Assistant Surgeon Young of the Marine hospital for use in the quarantine service in that vicinity. The request for these barges was made by Surgeon General Wynne after 4 o'clock yesterday afternoon and Gen. Wilson issued his instructions immediately. Three hours later he received word from Lieut. Patrick that the instructions had been executed and the transfer made.

FEVER DISTRICT TRAIN.
Jackson, Miss., Sept. 24.—The Alabama & Vicksburg railroad will run, commencing today, a daily mixed train between Meridian and Jackson, consisting of mail, baggage and freight cars, which will arrive at Jackson about 10:30 a. m., and will leave Jackson about 12 noon, returning to Meridian and arriving there about 5:30 p. m. A mail and express messenger will accompany its train to Meridian and back. All business for points between Jackson and Meridian can be handled except cotton. This train will not carry passengers or baggage.

AUGUSTA HAS NO FEVER.
Atlanta, Ga., Sept. 24.—A special to the Journal from Augusta says: There has absolutely no foundation in the rumor that yellow fever exists in this city.

PROSPEROUS SIGNS.

Ex-Comptroller Cannon's Fine View of the Conditions in the Northwest.

Washington, Sept. 24.—(Special to The Herald.)—Ex-Comptroller Cannon, president of the New York Chase National bank, has returned to the Northwest. He returns with optimistic views regarding the condition of business in the territory. "I found," he said, "evidence of prosperity in the states and cities I visited, and the business situation presented a marked and favorable contrast to that noted on my last trip two years ago. The merchants in St. Paul, Minneapolis, Duluth, Great Falls, Spokane, Seattle, Tacoma, Portland and other places are doing an excellent business, and they appear to be active and prosperous. Regarding the cereal crop, while the average number of bushels per acre in Minnesota and Dakota is not as large as in some former years, the total yield is considerably in excess and the price realized by the farmers is very satisfactory. "The advance in prices of our principal products has come at a time to insure the producers larger returns than is usually the case when an upward movement occurs. The cattle and sheep men in Montana are doing very well indeed. There is a large crop in Oregon and Washington, and the shingle and lumber interests are exceptionally active. The price of lumber is running full time in order to meet the demand from China and Japan for our lumber."

NADING HAD "SPELLS."
One This Morning Resulted in Murder and Suicide.

Cincinnati, Sept. 24.—A Shelbyville, Ind., special to the Times Star says: The town of Flat Rock, this county, was thrown into a furore this morning by the report that Wesley Nading, a well known and wealthy citizen had shot and killed his wife and then fired a bullet into his own brain. He is alive, but cannot recover.

Nading was of a despondent nature, and at times would become temporarily deranged, with such occasions he would grow jealous of his wife and threaten her life. One of these spells is supposed to have overcome him this morning.

THE OHIO CAMPAIGN.

Mr. Towne Says Silver Men Have More Than an Even Chance.

Washington, Sept. 24.—(Special to The Herald.)—Ex-Congressman Towne, accompanied by Representative Hartman of Montana, called upon the Washington correspondent of The Herald today. Mr. Towne stated that the principal object of his visit to Washington at this time is to look into the matter of the silver men and the situation in that state, said that while the silver men are not making any extravagant claims about 200,000 manufactory in the coming election, as were their competitors, they felt that they had something to say that an even chance and their prospects were improving from day to day. Mr. Towne expects to go on to New York tonight or tomorrow.

THE MONETARY COMMISSION.

Promises to Get Down to Work Next Week.

Washington, Sept. 24.—The monetary commission resumed its sessions here today. It is expected that an adjournment until Monday will be taken at the close of today's session, and that when the commission resumes work next week there will be a full attendance of members, and such an advance made in preliminary arrangements that the sub-committees will be announced and their work begun. It is understood that President Edmunds has selected the committees but that as several of the gentlemen were on vacation, the meeting will not be held until later.

The adjournment will give the members opportunity to attend private interests. The discussion brought out, however, that the members feel that their personal attendance at the sessions of the commission and of the sub-committees is essential to the successful work before them during the next ninety days, and for this reason they will be present at the meetings as far as possible, instead of leaving the work to be shaped while they are widely scattered. The morning session was confined to a general discussion of lines of work, etc.

STRONG EVIDENCE

Defense Props Up Its Assertion That Mrs. Luetgert Is Still Alive.

KENOSHA CITIZENS Testify That They Saw Her in That City After Reported Murder.

Chicago, Sept. 24.—The defense in the Luetgert trial this morning devoted itself to strengthening the story that Mrs. Louise Luetgert, who, according to the theory of the prosecution was murdered May 1, had been seen in and around Kenosha, Wis., on May 3, 4 and 5. Two witnesses, one of whom had known Mrs. Luetgert for seven years, positively identified a photograph of Mrs. Luetgert as the picture of the woman they saw at Kenosha on the dates mentioned.

Mrs. Mattie Scherer, Miss Maud Scherer and Miss Gertrude Keller testified this morning that Emma Schimpke, since she had testified for the prosecution, had said in their hearing that her evidence was entirely false. She said that only reason she testified falsely was to support the evidence of her sister, Gottlieb, who had first lied.

Frank Schiele, a farmer, who lives near Kenosha, Wis., and who had known Mrs. Luetgert for seven years, testified that he met her on a country road near that town on May 4. He said he did not recognize the woman, but he was attracted by her worn and exhausted appearance. Afterward, when he learned that Mrs. Luetgert was missing, and read a description of the clothing she wore when she disappeared, he was confident he had seen her, and that the strange woman he met on the road was she.

WILL BE OPPOSED.
An Attempt to Make Section 22 Operative Will Meet Opposition.

Washington, Sept. 24.—(Special to The Herald.)—There is good authority for saying that section 22, which has been nullified by the decision of the attorney general, will occupy the attention of congress early in the session. Its advocates claim that it is still law, although it cannot now be enforced, but that by making certain changes in the language of the section, so as to make clear the intent of congress, it can be rendered operative.

TWO MURDERERS RESPITED.
Confession By One May Save the Other's Neck.

Jefferson, Ga., Sept. 24.—The execution of Craig Reynolds and Paul Brooks, murderers of M. C. Hunt, in Jackson county, did not take place today. At 3 o'clock this morning the governor respite Brooks for four weeks on a confession made by Reynolds that he, single handed, had committed the murder, but that Brooks planned the murder and shared in division of the money.

MR. GILBERT'S CONDITIONS.
Washington, Sept. 24.—The department of the interior has accepted the bid of Frederick L. Gilbert for all the timber on Red Cliff reservation in Wisconsin. It is estimated that the timber amounts to 100,000,000 feet and Mr. Gilbert's bid is \$416.00. The conditions of the sale provide that Mr. Gilbert shall establish mills on the reservation and manufacture there the lumber to be made from the timber; that he shall cut not less than 10,000,000 nor more than 20,000,000 feet a year, and that he shall employ Indian labor when practicable to do so.

BIKE COMPANY WINDS UP.
Richmond, Ind., Sept. 24.—The Richmond Bicycle company is to be in the hands of a receiver. The liabilities are about \$37,000, an estimated assets \$89,000. Most of the creditors are fully protected by mortgages on both real and personal property. The cause of the embarrassment is due primarily to alleged mismanagement and to lack of harmony among members of the board of directors.

IRISH JURIST DEAD.
Dublin, Sept. 24.—The Rt. Hon. Robert Richard Warren, president of the probate and matriculation court of the high court of justice, Ireland, is dead. He was born in 1817, and had been solicitor general for Ireland and attorney general. He was a member of the general synod of the church of Ireland and the author of "The Church of Ireland and Kingdom of Christ," "Laws of the Church of Ireland," and "Divorce and Remarriage."

We never had such an Opening!

The crowds surpassed our most sanguine expectations. The return of prosperity was thoroughly demonstrated yesterday and today at

...The Big Glass Block Store.

Tomorrow, Saturday

We will eclipse Thursday's big day not only in the number of people that will visit our store but in our sales. **MORE NEW BARGAINS** that will tend to increase the crowds. Read about them, get your money ready for—

Pantons & White.

Grand Opening Cloaks and Millinery, Saturday, Sept. 25th

We invite every woman in Duluth to visit our store and inspect the largest and best assortment of Up-to-date Merchandise ever shown in the Northwest.

Cloak Department.

Our Fall Opening of Wraps for the coming season is without a parallel in the history of the twin cities at the head of Lake Superior. Positively and indisputably this store is without competition on this line of goods. Our buying possibilities and our cash purchasing power has placed us at the greatest kind of an advantage in the market this fall—has situated us so that we are able to simply ignore the recent rise in prices, and this combined with our low rent and small expenses, enables us to name prices on the choicest garments produced by the foremost woman tailors in America, much below any other store in this part of the Northwest. We make a specialty of EXCLUSIVE STYLES—styles not to be found at any other store at the head of the lakes. If you

1698

want a garment different from your neighbor's, you will find it here, and at a price that you can afford to pay. Please remember that we guarantee every garment we sell to be exactly as represented. If it does not prove in every way satisfactory we will cheerfully refund the money or give a new garment in its place free of charge. This is the house you should trade at.

Millinery Depart'nt

In calling your attention to our Millinery Department, we beg to state that our efforts this season have been to provide a stock of Millinery goods second to none north of Chicago. No trouble or expense has been spared that could in any possible way add to the attractiveness of this Department. Our aim at all times has been to cheapen the prices of up-to-date, reliable Merchandise. We sell Millinery on a strictly Dry Goods profit basis, and every woman knows what that means—a saving of from one-quarter to one-half. In Millinery, style comes first, then price. This Department caters to buyers that are particular—buyers that know what exclusive styles are, and can appreciate high art in Millinery. Exquisite styles in Pattern Hats at THIS store do not

cost a penny more than you'd pay elsewhere for very ordinary home-made hats. Our statements may seem strong to you if you do not know this store and our methods of doing business, but a personal inspection of our stock and a comparison of values will convince you that we do not exaggerate a particle the advantages offered you in doing your trading at this store.

One thousand pieces of new stylish Dress Goods are now ready for your inspection at unmatched price.

A GOOD SHOWING

City Treasurer Voss Makes a Complete Statement of Duluth's Indebtedness.

STEADY REDUCTION

Floating Debt Was Diminished Over \$132,000 During Last Fiscal Year.

City Treasurer Voss has issued a statement of Duluth's total indebtedness, other than the water bond debt, for the years ending February, 1897, '98, '99, '00, '01, '02, '03, '04, '05, '06 and '07. The statement was made in view of the fact that the faith of Eastern holders of city orders has become somewhat shaken by the reports that the city's running expenses are running beyond its income, that money realized from water bonds is being used to meet them and that extravagance prevails in the administration of affairs. There has arisen, too, a misunderstanding as to the real meaning and intent of the mayor's recent letter to the council concerning the tax extension law. This misunderstanding is resulting to the city's disadvantage among Eastern investors.

In speaking today of the letter, the mayor said that it was intended mainly as a statement of what might happen in case measures were not taken to prevent the law in question from hearing fruit. He did not intend to say, said he, that bankruptcy is imminent, and he felt sure that those who read his letter in the light of a knowledge of the situation did not put that construction upon his language.

"I took an extreme view of what might happen in case action is not taken," he said. "In order to impress upon the council the necessity of protecting the city's assets. We have the assets now and if we take action we can certainly protect them. There are, as I said in my letter, three courses open to us, two of which are bound to succeed. We can, first, test the legality of the law; second, procure its repeal at the next session of the legislature; or, third, make provision to protect the interests of the city and county by bidding in the property for the state tax. I merely meant, in my letter, to warn the council against allowing the city's security to be wiped out. At present Duluth is really in a better condition than any other Western city. We have

a debt, it is true, but we also have the security to cover it."

Treasurer Voss' statement is, in full, as follows:

Duluth, Minn., Sept. 23, 1897.—I, F. J. Voss, treasurer of the city of Duluth, do hereby certify that the following is a true and correct statement of the total indebtedness of the city of Duluth, other than the water bond debt, for the years ending February, 1897, 1898, 1899, 1900, 1901, 1902, 1903, 1904, 1905, 1906 and 1907.

Total bonded debt, Feb. 18, 1897,	\$1,464,650 00
Total improvement certificates, Feb. 15, 1897,	500,124 34
Total orders outstanding, Feb. 18, 1897,	298,227 07
Total	\$2,262,901 41

These orders with the exception of a few hundred for which the city had funds, but which had not been presented, and, therefore, had to be included as outstanding, were all issued on the permanent improvement fund. The city was doing a large amount of street improvement at that time and the contractors had them issued as fast as the work was completed.

When the assessment was made against this property, the owners in many cases not only failed to pay, but neglected to make application for extension.

Under the charter, certificates can only be issued against property where application has been made by either owner or agent. Such property to which no attention has been paid is advertised as delinquent and judgment taken and sold. Before this can be done a year or more has usually expired since the assessment was made, and the owner has still three years from the date of sale to redeem. It will be seen that payment cannot be enforced under four years and over from the time the assessment was made, and in the meantime the city has to carry the burden.

Total bonded certificates, Feb. 17, 1894,	1,095,087 04
Total orders outstanding, Feb. 17, 1894,	270,855 78
Total	\$1,365,942 82

One hundred and sixty-five thousand dollars of this increase in the bonded debt was caused by the annexation of the village of West Duluth. \$250,000 bonds were issued by the city to reimburse the general fund from which loans had been made from time to time by resolution of the council to the department fund, amounting to \$72,000 which was used in erecting fire halls and none of which has been paid back. Two hundred and seventy-three thousand dollars had been loaned to the permanent improvement fund from time to time by resolution of the council, only \$60,000 of which has been paid back. It is clear that our system of street improvement was disastrous from the beginning, and we should have stopped long before we did.

Sixteen thousand four hundred dollars of the city of Duluth bonds were paid that year, leaving an increase in the city's bonded debt of \$233,600. Six hundred and twenty-six thousand four hundred and twenty-one and twenty-five cents of the increase of the improvement certificates was caused by the annexation of West Duluth, and \$50,150.50 of outstanding orders had to be paid.

Total bonded debt, Feb. 18, 1895,	\$1,920,250 00
Total improvement certificates, Feb. 18, 1895,	557,797 90
Total outstanding	\$2,478,047 90

ing orders, Feb. 16, 1895,

Total

The increase here in the bonded debt and orders was caused by the annexation of the village of New Duluth and Fond du Lac, which became a part of Duluth, January 1, 1895.

That, together with the delinquent taxes will undoubtedly all be paid within a few years and will wipe out our entire floating debt. I do not know of a single case where the property is not perfectly good for the assessment, even in these times. For the West Duluth assessments it is claimed and I believe truly, in some cases, that the property is not worth the assessment and taxes. Let that be as it may, whatever we get out of it will be over and above our floating debt and so much surplus in our treasury.

With the recent reduction made in nearly all departments and general retrenchment all along the line, the city will be able to reduce its tax levy materially in another year. In the bonded debt is included \$325,250 village of Duluth refunding bonds which were issued under a special act of the legislature to refund the bonds of the old city of Duluth at the time it reverted back to a village. Under this act the county is responsible for both the interest and sinking fund, and the county now has some \$20,000 sinking fund on deposit with the American Exchange National bank of New York city.

The actual reduction in the floating debt for the fiscal year ending Feb. 15, 1897, is \$132,555.18. To offset this indebtedness there is due the city from delinquent assessments and taxes, over \$1,200,000. Of this amount, something over \$500,000 is for assessments made on property in the city of Duluth proper, and is a first lien upon the property.

At the next session of the legislature in 1898, an act was passed providing for the city of Duluth to assume said debt, which was \$250,000 bonds maturing April 20, 1898, and about \$15,000 in orders which were paid. This is probably the last downy the city will be compelled to accept.

Three thousand dollar 7 per cent city of Lakeside bonds were paid that year, which leaves the increase in the bonded debt \$22,000 over the previous year.

Total bonded debt, Feb. 15, 1897,	\$1,942,250 00
Total improvement certificates, Feb. 15, 1897,	412,968 52
Total outstanding orders, Feb. 15, 1897,	251,535 07
Total	\$2,606,753 59

It would appear from the above figures that our floating debt had been reduced during the past year \$232,565.15. In explanation to this I would call attention that \$250,000 surplus water fund money has been used which will not be needed for some time to come. Eighty thousand dollars of this has since been replaced and the balance will undoubtedly be replaced by the time needed.

PIMPLY FACES

Pimples, blotches, blackheads, red, rough, oily, itchy skin, itching, eczema, dry, itchy, and falling hair, and baby blemishes prevented by CUTICURA Soap, the most effective skin purifying and beautifying soap in the world, as well as permanent sweetener for toilet, bath, and nursery.

Keels throughout the world. PORTER, D. AND CO. CORP., Sole Exports, Boston. See "How to Beautify the Skin," free.

may be represented.

Duluth may have delegates at the Columbus Convention.

It is possible that Duluth could not be represented at the national convention of mayors and councilmen, to be held at Columbus, Ohio, Sept. 25-Oct. 1, Aldermen Cochran, Barker, Stevens, Fischer and Trevillion have indicated that they might attend. There will be discussed at the conference, matters relating to fire and police departments, municipal ownership, street lighting and cleaning, garbage disposal, paving, waterworks and sewerage. It is said Alderman Jefferson who does not intend to go will send a written query as to what sort of a snaffle his conference would demand for a hard-mouthed fire department.

The District Court.

In judgment court this morning the case of M. J. Clark against the B. B. Richards Lumber company and the Duluth Trust company was still on trial. One of the attorneys said he expected to see all the evidence in today, but others were somewhat doubtful whether the end was so near.

In Judge Moer's court G. P. Joy was suing the Ashland Screen and Manufacturing company to recover \$230 for a carload of stove boards shipped from West Duluth in May, 1896. The boards were refused by the defendant and the defense to the suit is that they were not marketable.

In the case of E. J. Phelps against the Hardware company, a referee has been appointed to be due for rent under a lease of a store room, the jury yesterday afternoon returned a verdict for the defendant.

Ready for Business.

FURNISHED HOUSE FOR RENT. A new house in East End for rent, furnished or unfurnished; cheap. Little & Nott, Exchange building.

You should be in our directory, it will be in all the homes.

AMUSEMENTS.

GIFFEN-NEILL COMPANY.

The Giffen-Neill company closed its Duluth engagement last night presenting "The District Attorney" to a very small audience. The piece, not withstanding, was a success in New York as it was put on the stage there when there was considerable scandal about the official conduct of a certain district attorney, unpermitted by the investigations of the celebrated Lexow committee. The play is in four acts and deserves attention from the fact that it was written by Harrison Grey Fiske and Charles Klein, who are recognized in dramatic circles as among America's leading playwrights.

The piece breathes only the local atmosphere of New York city, and so much so that it could hardly be stamped as a success elsewhere. Very many of its speeches refer to municipal government matters in that city, the intent and force of which do not apply with the same potency anywhere else. Besides, the piece appears as if one of its authors wished to make it a society drama and the other a melodrama and they split the difference and made it a compound from each. Then the comedy vein is so weak it is painful to attempt to laugh at it. There should have been still another author to inject the comedy element. There is not a single situation in the entire first act. The second act is good, the third is strong and intense and well built, but the fourth again is rather drawn out and tedious. Taking it altogether the play can hardly be called satisfying.

The production last night was in almost all respects worthy of the authors' work. Mr. Neill in the title role was excellent while Mr. Mayall as the villain gave an impersonation of an old man writhing under the fear of the uncovering of his sins that was as fine a piece of work as he has ever been seen in here. Miss Chapman was good in what she was asked to do. The rest of the cast was fair.

"SOUTH BEFORE THE WAR." Tonight "South Before the War" will open its engagement at the Lyceum, and it will be seen tomorrow afternoon and evening also. The play is said to be wonderfully staged. A carload of new scenery depicting a cotton field in full bloom, frog island, and the old Mississippi steamboat, Robert E. Lee, and several new ones that will be a surprise by their true realism, and a revelation in the art of stage craft, making the production the most realistic, and to those of the younger generation who have often heard what a plantation was in ante-bellum days, this play will give a very realistic idea.

CLAY CLEMENT.

Monday night Clay Clement will open his return engagement of two nights at the Lyceum, appearing in "The New Dominion," in which he takes the part of Baron Hohenstaufen, a creation which is winning laurels for him everywhere. It is one of the greatest characters the stage has seen, and a finer piece of work than Mr. Clement's characterization of it has never been seen.

MARKS BROTHERS' COMPANY. The Great Eastern hall at West Duluth is packed to the doors every night. This is the last week of Marks Brothers' stay as the company will open in Ironwood, Mich., on Sept. 27. Tonight "North Carolina." Saturday matinee, "Little Lord Fauntleroy." Saturday night, "The Great Diamond Robbery."

Freight Train Wreck.

A St. Paul & North Pacific train in which left here at 6 o'clock this morning was wrecked on the hill just beyond Spirit Lake and the through passenger train

from St. Paul was delayed about two hours as a result. In going up the grade the freight train broke in two or three pieces and a number of cars were piled up in the ditch. The extent of the damage is unknown.

WANTS HIS MONEY BACK.

C. H. Bradley Sues For Field Notes He Bought.

The first litigation from the Seine River gold country was begun in district court this morning. Charles H. Bradley filed complaints in two suits against Louis S. Franklin and Louis M. Franklin. In the first suit it is alleged that last March the defendant, L. S. Franklin, represented to Bradley that he was the owner of field notes of 60 to 80 acres of land in Ontario adjoining the mining location known as the "Swede boys," and that it was valuable for gold mining. He offered a half

interest in the notes to the plaintiff for \$500, and the offer was accepted. It is alleged that the representations were false, as Franklin did not own the notes, and that they were of no value if he did, as other people had acquired the land before this. He asks in his complaint for rescission and his money returned.

In his second suit he alleges that in February, Franklin represented himself as the owner of notes on 150 or 160 acres of land near Grassy Lake on the Seine river, and they entered into a contract by which the plaintiff was to pay \$100 for a half interest, and if he was satisfied after examining the property he was to pay \$500 more and conclude the bargain. He says that he paid the money and that after having gone thus far he elects to throw up the contract. He asks to have his money given back to him. R. R. Briggs is his attorney.

Good meals served on the fair grounds by Pinkman, 25 cents. Luncheon from 5 cents up.

SET OF TEETH THIS WEEK FOR \$5.00 ON RUBBER

Store open Saturday night till 10:30.

This is Pre-eminently A CLOTHING STORE

All our thought—all our attention—all our capital, and eleven years of work wrapped around a single purpose—THE CREATING OF THE GREATEST CLOTHING STORE IN THE WEST! Take it in its broadest meaning and compare the store with it. You'll find assortments superior to any other—you'll find qualities, workmanship, trimmings and styles far better than any other store possesses—and as to price, there is not another clothing store in the land that can surpass the low prices of the Great Eastern. And the people know it, too. Hundreds and hundreds of people that will flock here Saturday will do so simply because they know from actual experience that they will get here better and finer clothes for the money invested than would be possible at any other store in the West.

Men's New Fall Suits AND OVERCOATS.

Never since we began storekeeping have we shown such a beautiful stock of Men's Suits and Overcoats as we show this fall—Suits that cannot help but win the admiration and trade of men who have been patronizing the tailors. They are made up by the leading wholesale tailors of this country, and they are distinctively swell, fashionable in design, but not extreme; tailored by experienced hands and sold nearer the cost of making than any other good garments in this country. Prices—

\$8 \$10 \$18
\$12 \$20 \$25
\$15 \$25

Boys' and Children's Clothing

Take elevator—Second floor.

A VARIETY even approached at any other store at the head of the lakes, for that matter, in the entire West. All the newest, brightest, best styles, made up to give the utmost service, and sold at prices that practically preclude competition.

M. S. BURROWS

IS AFTER MARCUS

Witnesses in the Case Against Him Did Not Show Up Today.

RUSTGARD GETS HOT

Says Marcus Has Boasted That He Had Bought Up the Police.

When the case of Nathan Marcus, the proprietor of the auction store in the Spaulding hotel block, charged with obtaining \$1 from one Robert Brown by false pretenses, on a watch deal, was called for trial, before Judge Edson this morning, it developed that the complainant and the other witnesses for the prosecution were not present.

Assistant City Attorney Rustgard stated that the witnesses, one of whom is an employee of the defendant, had "taken vacations" before subpoenas could be served on them. Mr. Rustgard announced his determination of staying the case until the witnesses could be served, and he asked a continuance to enable him to get the witnesses.

SPELLMAN ON TRIAL.

Placed on Trial This Morning For Arson in the Third Degree.

Judge Edson this morning took up the case against Thomas Spellman, who is under indictment for arson in the third degree. The jury had been completed at noon, and the way was cleared for the introduction of evidence this afternoon.

Spellman is accused of setting fire either personally or through his agent to his house at 184 West Superior street, on the morning of April 1. He and his wife were indicted last May and when his case came to trial the indictment was knocked out by the court. When the case against Mrs. Spellman came up the court reversed himself and held the indictment against her. Spellman was convicted and is serving a sentence of one year. The last grand jury again indicted Mrs. Spellman, and he is now on trial under the new indictment. Before the trial began his attorney, C. O. Baker, H. Gamble, Matt Wilson, D. W. Freeman, O. M. Coleman, Peter Marion, John Boyer, John P. Mason, Thomas Dillon, Henry Haskins.

Before the noon adjournment County Attorney Arbury made his opening address to the jury. He said that the state would not claim that the defendant touched a match to the fire, or that he was in the city when the fire was started. It would show that he left his home at 11:15 on the night of the fire and went to Superior, where he was employed. The fire started about 3 o'clock in the morning, and it was soon put out. When the department arrived it found a very suspicious set of circumstances. The furniture was all the wainscoting were broken open and the holes filled with cotton waste soaked in oil, and much of the clothing had been removed from the house. The state would not show that the defendant had set the fire, but it would show that it must have been set with his knowledge or by his counsel and advice.

Mr. Baldwin objected to the introduction of any testimony on the ground that from the county attorney's statement to the jury the state expected to prove that the fire was started on the advice and with the connivance of the defendant, while the indictment charged him with setting the fire. He claimed that this prevented his client from preparing a defense to the charge. Under the indictment he would prepare an alibi, and it would be unjust to try to show when he had not been warned that he was to be tried on that ground. Judge Edson overruled the objection on the ground that there was nothing in the records to bring the objection before the court at that time. The motion will be renewed later.

Removed.

We are now permanently located at 224 West Superior street, where we will always have a full line of the choicest cut flowers and potted plants. Come in and see what an up-to-date flower store is like, even if you don't want to buy anything. W. W. SEKINS, Florist.

THE FAIR FLOWER SHOW.

List of Prizes Awarded Yesterday By the Judges.

The prizes in the flower exhibit at the fair were awarded yesterday afternoon. For the best design, Mrs. J. T. Rose took first prize, her figure being a small American flag, perfectly reproduced in color and form. The second prize was captured by Mrs. Veitlander. The awards throughout were as follows: Dahlias—First prize, Mrs. Joel Colby, of Duluth. Asteris—First prize, C. W. Murray, of Colville; second, Mrs. J. T. Rose, of Duluth. Pansies—First prize, Mrs. Joel Colby; second, Miss Mary Richards, of Duluth. Sweet peas—First prize, Mrs. Thomas Bowers, of Duluth. Flowers, of Duluth. Nasturtiums—First prize, Mrs. Thomas Bowers. Poppies—First prize, Mrs. Thomas Bowers. Floral design—First prize, Mrs. J. T. Rose; second, Mrs. Louis Veitlander, of Duluth; third prize, Mrs. J. T. Rose. Basket cut—First prize, Mrs. Joel Colby; second, Mrs. Louis Veitlander, of Duluth; third prize, Mrs. J. T. Rose. The crowd at the fair this afternoon is nearly as large as yesterday. The heat of the three-minute class race Kitty E. won in 2:25; W. C. S. second and Cora Nell, third.

A Creditable Exhibit.

Ellis Range, the great lone pacer, attracts the interest of visitors on the outside, but the one attraction inside of the exhibition building which draws the most attention is the exhibit of the Duluth Music company. Three magnificent instruments are displayed, each of which awakens attention the moment it is observed by the sightseer. There is one Ivers & Pond piano, a beauty, and two magnificent Ludwigs. The sweetness of tone of the latter is remarked by all who hear them played upon, and the elegant style and design of the cases is at once commended. The Duluth Music company, with E. G. Chapman as manager, has thoroughly established itself as a first-class reliable establishment of the city, and it is making every effort to give the people high grade pianos at the lowest possible prices. They have splendid bargains in up-rights all the way from \$125, up to the price of the great Steinway, which everybody knows is the peer of all. The Duluth Music company is the only house at the head of the lakes handling the Steinway and Knabe, and the only selling the Ludwigs. Visitors at the fair should see and hear the Ludwigs. If parties desire terms, as low as the payment of \$10 per month can be arranged.

ARIZONA RAILWAYS.

that Tax Exemption Has
Boomed Them.

Phoenix, Ariz., Sept. 24.—When
at two weeks notices of intent
to construct 3000 miles of new
lines have been filed with the territorial
commissioners of Arizona. There are the
separate filings, of almost as many
different lines of new railways. This
was made under a law passed by
the legislature to the effect that
any railway lines on which active
work had been commenced by one year
from the passage of the acts had been ex-
empted from all county, municipal and
city taxes. This was known as the
"tax exemption" law, and it has en-
couraged the taxation of railways
in Arizona, and its passage was
the result of a "cut" in the tax
rate. The word "cut" in cloth-
ing is termed "cut" in cloth-

VOLUME DECLINES

Ore Shipments from the Lake Superior Ranges Show a Falling Off.

NEXT YEAR'S TRADE

Probably Fifteen Million Tons Will Be Required During Next Season.

Isleport, Mich., Sept. 25.—(Special to The Herald.)—Ore shipments are slackening greatly from mines of the Mesabi range, and the volume of shipping from the other ranges is somewhat less than earlier in the season. The ore traffic is, however, larger than at the corresponding period of last year, and at present the shipments are well toward a million tons in excess of the amount forwarded to Sept. 25, 1936. Mine operators are making but little money on this year's output, but are having the satisfaction of handling considerable amounts of cash, and the pleasure that is derived from giving to the workmen dependent upon their larger sums than for four years.

Some of the ore will be required from the Lake Superior mines, but the advance in price has been such that the output of the best previous years. There is no question that the mines can produce the ore at given days notice, but it will be less work and will require the services of every able-bodied mine worker and laborer in the district.

The rule of thumb, which once prevailed in many of the largest mines, has been replaced by exact knowledge. That this change has been to the great advantage of the manufacturer is apparent from the fact that the output of iron on the market which were at ways the same. Manufacturers were compelled to take the best that they could get, and not what they wanted. The miner dictated to the founder, and the founder told the miner what he could take or leave it. If there was complaint that the iron was not just what was wanted, the miner would say that the iron was not just what the founder wanted.

FIGHT OF HIS LIFE

Senator Davis Will Be Forced to Struggle for His Re-Election.

MANY FIGHTING HIM

Some Are Doing It In the Open and Others in Secret.

Washington, Sept. 25.—(Special to The Herald.)—A great deal of inside information is being gathered in Washington to wait for the contest that will be waged over the seat now occupied by Cushman K. Davis in the United States senate. Mr. Davis will make the fight of his life to secure reelection and everybody who knows Mr. Davis' record in the senate is aware of the fact that he deserves such honor.

Some of the men ambitious to come to the senate from Minnesota are fighting Mr. Davis in the open. There are others, however, who are endeavoring to undermine him and these, of course, are the men Mr. Davis will find most dangerous. While Charles A. Pillsbury of Minneapolis has frequently denied that he is ambitious to become a United States senator, or hold any other office, information is continually coming to Washington from Minnesota to the effect that many men who know the politics of the state believe that Mr. Pillsbury is attempting to cover up his plan to become a senator.

Woman's His NAVAL ACTIVITY

Cruiser Baltimore to Be Sent to Honolulu as Soon as Possible.

PATROL THE YUKON

Gunboat Wheeling Will Probably Be Sent to Patrol the Alaskan River.

Washington, Sept. 25.—As an aid to expedition in placing the cruiser Baltimore in active service upon the arrival of the ship from Hawaii, Acting Secretary Roosevelt has directed that 180 men be transferred from New York to Mare Island. The Philadelphia and the men ordered to the Pacific slope will take their places in the crew of the Baltimore which will be placed in commission with a short crew on Oct. 1.

One of the most important cases to come up at the next term of the federal court at Grand Forks is that of E. C. Fourieau, receiver of the Northern Pacific, against Nash Bros., who have been accused of having stolen a considerable amount from the bank, and the receiver claims that as a part of the assets of the institution.

The spectre

of housecleaning needn't trouble you a moment. The person that dreads housecleaning knows nothing of Pearlina—of its easy work, its quickness and comfort, its saving of paint and of rubbing. Go over everything with Pearlina—floors, doors, windows, woodwork, paint, marble, stone, glass, carpets, bric-a-brac—and you'll get through any cleaning job in the shortest time, and with the least labor and fuss. You don't need any other help. Pearlina is meant to wash everything that water won't hurt.

Beware

of an imitation, be honest—and it's back.

Duluth People Being Cured

of Consumption in West Superior.

MR. PALMER SAYS: I began treatment with Dr. S. CLAY TODD, 1224 Tower Avenue, West Superior, Wis., for Consumption of the Lungs, August 31st. I could hardly breathe, could not talk above a coughed, great pain in my lungs and very weak, vomiting every time I ate or drank. When I began the treatment I weighed 119 pounds and today I weigh 130 pounds.

COULD NOT EAT.

Effects of Treacherous Disease. A Wonderful Case.

From the Bulletin, Monroe, La.

Mr. Stephen Robbins is the wife of a prominent farmer living on a large and well-kept plantation just inside the city of Monroe, La. They have resided in this community but two years, having moved here from Illinois. The change was made for the benefit of Mrs. Robbins' health, her physicians having advised her that it was the only hope of her ever regaining her lost health.

"Three years ago I was laid up," said Mr. Robbins, "I was very sick, with that

Pills for Pale People had effected a miraculous cure with the same disease which had afflicted my neighbor of mine here in Illinois. On the strength of this testimonial I decided to write you to give me a trial, accordingly sent for a box of Dr. Williams' Pink Pills for Pale People, and gave the pills a thorough trial. I did not notice any change till I had tried the second box. Then I began to feel better, and with the result of the first box, but knowing I should not

very severe time with it, but was able to get out after being confined to my home several weeks. I think I went out too soon, for I immediately contracted a cold and had a relapse, which is a common occurrence with that disease. For several more weeks I was confined to the house; and after this I did not fully recover until recently.

"My former strong constitution was wrecked, and I was unable to do any kind of skin and bone. My blood was thin and my growth pale and sallow. My lungs were so weak that I could not breathe without suspension. During my illness I had lost thirty pounds weight. I tried to regain my strength and health by the use of many different medicines and physicians, but nothing would do me any good. I was alone, and when I ate the food it would not stay on my stomach."

"I consulted my physician said for me to do a change of climate, and to get some exercise. I was not improved, and benefited, but to my sorrow it proved to be only temporary, and in a few months I was again alone."

[illegible]

An important demand in 1888 will be for the bearing adjustments to be locked independently of the wheel. It is one of the most needed controls for the wheel, and the design it allows a bearing to be adjusted before the wheel is placed in the frame, which means that the bearing can be adjusted in the presence of turning the adjusting cones in the frame. The design is without a special wrench or spanner. The special wrench advantage is that the wheel can be adjusted in the frame without disturbing the adjustment for the cone of the wheel.

According to advice received from the California Associated Cycling clubs is now a thing of the past. The Pacific coast President Swain of the association recently returned from a tour of the Northwest, and through his efforts the organization now presents an unbroken front along the coast from Oregon to British Columbia. The Pacific coast association is a member of the California organization by the Canadian Wheelmen's association, and the latter is now sending riders of the associated clubs to compete at all Canadian meets.

The noted riders in Europe are reported to be earning large incomes this year. The American riders, who are between six and eight professionals, who are taking their lion's share of all the big money races. Mattiur, who is a professional, is conceded to be the more remunerative. He has won the last year's race and received \$25,000 in the past two years from the income he derived from racing. The American riders are responsible for the generous

Whereas, there is actually due and claimed to be due and payable on said mortgage the sum of one thousand one hundred and thirty and no/100 dollars of interest thereon at the rate of seven per cent per annum, and

And, wherefore, notice is hereby given, that, inasmuch as said mortgage is provided in said mortgage, and pursuant to the provisions thereof, that the said mortgage will be foreclosed, and the same Special and Important Announcement?

For the accommodation of the ladies we have put in stock a full line of—

MME. YALE'S FAMOUS TOILET PREPARATIONS

and will continue to carry them from now on. During this entire week we will hold a grand exhibition and cut price sale of all

Mme. Yale's Remedies

We have cut the prices away below any others ever made, and will meet any competition. Our goods are genuine, we guarantee them to come direct from Mme. Yale's laboratory. We never substitute. We guarantee Mme. Yale's Remedies to be the highest class goods on the market and of highest medicinal qualities. Awarded World's Fair medal and diploma of honor for great merit and purity. CONSULTATION FREE—Ladies Attendants—We have appointed several young ladies to wait on our patrons and assist them in selecting the necessary remedies. Guide to beauty free. Ask for it.

YALE BEAUTY LIST.

For wrinkles use Mme. Yale's "Skin Food," regular price \$1.50, our price \$1.29	For creating a rose color and brightening the complexion, use Mme. Yale's "Blush of Beauty," regular price \$1.00, our price 85c
For removing blemishes, clearing and whitening the skin, use Mme. Yale's "Complexion Bleach," regular price \$2.00, our price \$1.59	For Cultivating Luxuriant Lashes and Eyebrows, use Mme. Yale's "Eyebrow and Lash Grower," regular price \$1.00, our price 85c
For freckles, use Mme. Yale's "La Freckle," regular price \$1.00, our price 85c	For Female Weakness, take Mme. Yale's great Female Tonic, "Fruit Cura," regular price \$1.00, our price 85c
For developing neck, bust and arms, use Mme. Yale's "Bust Firming" regular price \$1.50, our price \$1.29	For the Blood and Liver, take Mme. Yale's "Blood Tonic," regular price \$1.00, our price 85c
For Restoring Life and Color to the Hair, stopping it from falling and creating a luxuriant growth, use Mme. Yale's "Hair Tonic," Mme. Yale's "Hair Cleanser," regular price \$1.00, our price 85c	For Softening, Whitening and Refining the hands, use Mme. Yale's "Hand Whitener," regular price \$1.00, our price 85c

GIVES SOME SOUND ADVICE.

Dr. Humason Talks to the Croakers In Duluth.

Dr. G. H. Humason talked encouragingly of Duluth, her finances, her present and her future last night and advised the people to do less croaking and look for something to be commended about the town instead of constantly running it down. He had read the statement of the city finance committee in the Evening Herald by City Treasurer Voss, and concluded that a city which in a period of financial depression had reduced its indebtedness \$122,000 in a single year is making a pretty good showing, and is far from being insolvent.

Duluth, he said, is not a model city by any means, but there are many wonderful things about it that excites his admiration. He spoke of the wonderful growth and development during the past ten years in the face of great obstacles and is confident that its future is assured. During the past week he talked with a Minneapolis man, the head of a large financial institution in the Flour City, who declared that within the next twenty years Duluth and Superior would far outstrip St. Paul and Minneapolis, and this he thought was a reasonable admission for a Minneapolis man to make.

If a man has something to sell he does not go about discrediting his property and he had noticed that the man who went around telling of his misfortunes and how little he amounted to, soon had lots of people of his own way of thinking. He thought the man who should apply to a town. A man who lives in a city and gets his livelihood there should not be guilty of speaking ill of it. It is his duty to stand by it and defend it against all slanders.

He referred approvingly to the recent reductions in the city's expenses and said that while probably he would not have made them in the same way it was not for him to criticize, as he was not familiar with the details of the city's business. He regretted that it had been necessary to cut down the school year from ten to nine months, but there are other cities that have made deeper cuts than this. He was recently told of one town where they had grown so poor that the services of conductors on the street cars were dispensed with, and where the motormen collected the fares. The Duluth street railway system is admirably managed, he said, and it is due to the efforts of the men back of it that the big bridge had been built, that the expense during the hard times, and an interstate street car service established.

Of all the cities in Minnesota Duluth offers the most advantages as a place for a permanent home, he said. Other

HE BREATHES EASILY

Appetite Improved and Health Restored—That Tired Feeling Banished.

GREENLEAFTON, MINN.—"After using other medicines with no benefit I tried Hood's Sarsaparilla and I now weigh 151 pounds, my former weight being 135 pounds. It has cured me of that tired feeling and I can breathe easier. I have a good appetite and am feeling better than I have for a long time and I recommend Hood's Sarsaparilla." FRANK OGDEN.

Hood's Pills are purely vegetable, reliable and beneficial.

CLOSE OF THE FAIR

Association Finds Itself In Excellent Shape and Has Great Plans.

THE POULTRY AWARD

Next Year's Fair Will Be on a Much Larger Scale.

The fair is over and the patronage given it was so liberal that the association is on its feet, able to pay all its obligations and has money left to start the ball rolling next year and make some needed improvements. The fair this year was not what the managers had expected, but considering the odds they worked under its success was marvelous. To J. E. Cooley, W. D. Underhill and Dr. Davis was its success almost entirely due and they had to do herculean work. Said Mr. Cooley on Saturday:

"I don't like to complain, but it does really seem to me that we have not had the assistance of the business men of Duluth as much as we deserve it. A superior street merchant could get no better advertisement than a line display here and it would not cost very much. Look at the crowds that have surged through our fair. Where could a merchant so effectively advertise his business as here and it is a kind of advertisement that can be made to pay. A catchy display with a good deal toward bringing a store into prominence. Next year we hope to have a main building twice as large and we want to see it filled. This year's fair has shown how popular they are and this fact ought to be apparent to the business men."

Mr. Cooley hopes to make the fair in St. Louis next year a more city fair, in fact, it is his idea that it ought almost to reach the proportions of the state fair. He is already working along that line and expects to interest St. Louis, Canton, Lake, Cook, Itasca and Douglas counties in Wisconsin. A fine main building would be erected, a machinery hall, poultry sheds, cattle sheds, etc., and a fine race track laid out. There would be no more exhibits and special prizes would be offered for them, one county competing against another.

The present race track is a good one, but it is proposed to make it even better. The race track is a good one, but it is proposed to make it even better. The race track is a good one, but it is proposed to make it even better.

There were three races Saturday afternoon, the 2:25 pace, the 2:30 pace and the 2:16 trot-2:18 pace. The most attractive of the three, the 2:16 trot-2:18 pace was held to the finish when nearly everyone had gone home. When the race was over the crowd was still there and the race was not over until the 2:16 trot-2:18 pace was over.

The 2:16 trot-2:18 pace was taken by Howard owned by Carr of St. Paul, in three straight heats, and was second in the first heat, third in the second and fourth in the third. The 2:30 pace was won by Laverly owned by Ennis, of Superior, captured three straight heats. Talleyho, the favorite, was second in the first heat, third in the second and fourth in the third. The 2:25 pace was won by Dr. Davis' horse, third money. The 2:16 trot-2:18 pace was won by Howard owned by Carr of St. Paul, in three straight heats, and was second in the first heat, third in the second and fourth in the third.

HARVEY FETTER'S SCHEME.

If He Can Make It Go It Will Be a Winner.

Harvey Fetter, an engineer, who is well known here and visited here a short time ago, is planning an expedition to Alaska. The Minneapolis Journal says of it:

"Harvey Fetter, a civil engineer, is convinced that it is not the snow and ice, but the slush and mud, which make trouble for all who attempt travel in the Alaskan north. Holding such a belief, he is making arrangements for a dog train service with which to carry on communication with the Klondike this winter. As an indication of how easy it will be to consummate his plans, he points out that the mails to the Klondike are always carried easier in the dead of winter than in summer.

The snow, owing to the extreme cold, never exceeds four feet and with the entire route frozen solid, he calculates that the sledges ought to have a firm course. He will take two or three men with him, and the necessary heavy dogs to haul the three sleds. Mr. Fetter thinks he can average twenty miles a day with a load of his supplies for gold dust and start back through the wilderness.

"Mr. Fetter has a brother who is an attorney, living in St. Paul. Fetter himself has seen all kinds of roughing it. His work as an engineer has carried him over the most rugged and difficult territory, some of it through bottomless swamps, where progress could only be made by wading. He has log to log, anchored in the muck. He has just returned from a pedestrian tour of Europe. Three times he crossed the Pyrenees, and for days at a time he has been in the midst of the eternal snow and ice. In a way, therefore, his approaching experience will be of great value in the way of new features to him."

Other causes for it. A professional nurse who has worked through several epidemics of typhoid fever at the head of the lake, and who has ample opportunity to study the cause of that disease, said in discussing the subject with a Herald reporter:

"While the water furnished the people of Duluth is not what it should be, it is given credit for doing more harm than it is doing. The city is procuring plenty of typhoid in this country here the Duluth Gas and Water company has never thought of the fact that the people who live here long after that corporation has passed out of existence and the city is procuring its water supply through the new installation of the spring water that is being sold for fear of typhoid is worse than the water which has been used in the past. The water which has been used in the past is being sold for fear of typhoid is worse than the water which has been used in the past.

FILING PULPITS

Methodist Laymen and Some Clergy Propose to Curtail Bishops' Powers.

MAY CAUSE A ROW

Matter Will Be Brought Up at the General Conference Next Year.

New York, Sept. 28.—The Herald says: There was a lively discussion at the meeting of the Metropolitan ministers of the Methodist Episcopal church, in the Methodist book concern building, over the proposition to curtail the power of the bishops. The subject discussed is one of the most vital affecting the affairs of the church and it also embraced the methods now resorted to by leading clergymen of the church in getting transfers from one conference to another with a view of bettering themselves.

The evils of the present system assumed an aggravated form at the annual conference of the New York East conference last year and this was really the cause of the present movement to curtail the power of the bishops. Last year three of the leading churches of that conference, which were apparently unable to satisfy themselves with the timber near at hand, the terms of their pastors having expired, extended calls to men in other parts of the country and assumed that they would get the men of their choice. But the conference body of ministers of the conference made a vigorous protest on the ground that the conference was already full. The protest was so strong that Bishop Walden concluded not to let the three churches referred to have the minister to whom they had extended calls. The feeling that had been stirred up in the New York East conference which compels some of the leading churches in the metropolitan district, had the effect, however, of bringing the subject before the entire body of ministers, and was for the purpose of determining whether it was not possible to correct the evils that the meeting was held.

The question was opened by a paper read by the Rev. G. L. Thompson, of Shelton Conn., in which he urged that the Ministerial Transfers bill be readministered. Dr. Thompson said that some change was advisable and he suggested as a remedy that the presiding officer lay on the subject to settle the question as to whether a certain minister from the outside should be allowed to fill a pulpit when a call has been extended to him by a church. Furthermore, Dr. Thompson said that the crowding of conferences by the admission of outsiders could be obviated by providing that no new minister should be admitted unless an old minister leaves and that no new minister should leave the conference in any one year. It is considered likely that the meeting will make some recommendations of resolutions, which will be presented at the general conference which convenes next year, and which will contain regulations of the character indicated by the paper of Mr. Thompson.

MEXICAN RECIPROCITY.

Bureau of American Republics to Define Its Extent.

Washington, Sept. 28.—Joseph P. Smith, director of the bureau of American republics, will have an article in the forthcoming bulletin of the bureau, outlining the extent to which, in his opinion, reciprocity can be applied under the new tariff law in the United States, Central America and the West Indies. He shows the expansion of this trade through recent improved means of communication, by rail, steamship, and concerning Mexico, says:

"If transportation enterprises are supplemented by a wise system of reciprocity, there will be no bounds to the development of mutually beneficial trade under the stimulus of closer intercourse and a better acquaintance. The tariffs of the two countries lay duties on the products of each, which afford the basis for advantageous concessions. The appeal is made to the wisdom of our judgment, to remit or modify taxes on Mexican hides, tobacco, ores and fruits in exchange for the importation of Mexican goods into the United States."

Mr. Smith says the same is true as to the trade of Central America, and the West Indies, with certain exceptions. Cuba, many of the British colonies to the southward are, he says, practically dependent on the United States for the necessities of life, and reciprocity would insure the sale to them of many articles which they now buy in Europe.

AN IOWA TRAGEDY.

Family of Eight People Killed by the Husband.

Carroll, Iowa, Sept. 28.—The slaughter of a mother and her six children occurred at the home of John Becker, a farmer living eight miles northwest of here Sunday night. Afterward the husband or demented husband and father, whose hands were stained with blood, was found by a neighbor, and his own head, inflicting a fatal wound. The family were prosperous Germans and as far as known lived a quiet life. Becker's victims are his wife and six children: Caroline, aged 14; Christine, aged 9; Henry, aged 8; Lizzie, aged 6; John, aged 5; and an infant. All are dead but Henry and the latter cannot recover from his wounds. Becker had an engagement to help a neighbor thresh this morning and in his not-
thresh this morning and in his not-

A mother and her baby can have lots of fun together if they both are well and satisfied. Both before and after the baby is born. The most remarkable strength-sustainer for women is Dr. Pierce's Favorite Prescription. It imparts health and endurance directly to the organs, appendages and nervous system concerned in maternity. It makes motherhood perfectly safe and nearly painless.

It protects the mother from relapse; makes her capable and cheerful; assures abundant nourishment for the baby; and completely reinforces the vitality of both mother and child.

It is the only scientific medicine devised by an educated experienced physician for the express purpose of strengthening and healing women's special organism.

The reasons why it is the most perfect and successful remedy of its kind in the world are more fully explained in one chapter of Dr. Pierce's great thousand-page illustrated book, "The People's Common Sense Medical Advice," which will be sent, paper-bound for 21 one-cent stamps to pay cost of mailing only. Or handsomely cloth-bound for 37 stamps.

Mrs. P. B. Canalis, of No. 4200 Humphrey St., St. Louis, Mo., writes: "I am now a happy mother of a fine, healthy baby and have done more good than anything I have ever taken. Three months previous to my taking Dr. Pierce's Favorite Prescription, I took three boxes of Dr. Williams' Pink Pills. With my first baby I suffered 18 hours. For two years I was unable to get on my feet. The 'Favorite Prescription' saved both my child and myself."

It is in appearance, his father, Henry, who lives about twenty rods away from the house, and who has been told about the case. Henry tried to get into the house but met no response and finally he went to the door and came on the three boxes of Dr. Williams' Pink Pills. The man, still breathing, had a bullet hole high up in the forehead and by his side was a Smith & Wesson six-shooter with two chambers empty. The Becker house and upstairs Henry and Lizzie lay on a bed with bullet holes in the forehead, the latter dead, the other breathing. In the opposite corner of the room, John, Christine and Caroline had been shot, though Caroline had two.

UNITED STATES COURT.

Court of Appeals Decides Some Interesting Legal Cases.

St. Paul, Sept. 28.—The United States circuit court of appeals has handed down six opinions, all of which are of considerable interest. The first of these is a decision of the court in a case brought by the Minneapolis and St. Paul Railway Co. against the city of Minneapolis, in which the court decided in favor of the city.

The title of the case is P. H. Kirwan, et al., vs. United States surveyor general for the Minnesota territory, and the case is one of considerable importance, relating as it does to the rights of settlers in the territory.

THE STATE FINANCES.

late Treasurer Koerner Completes His Annual Report.

St. Paul, Sept. 28.—State Treasurer Koerner has completed his annual report. The report published at the close of the fiscal year gave only the balances of the different funds, while the report just completed gives the expenditures and receipts of the various funds, and sources from which the receipts are obtained.

In the receipt column it is shown that the counties have paid to the revenue fund \$35,294.54; to the permanent fund \$10,438.82; to the school fund \$3,526.71; to the university fund \$1,315.77; general improvement fund \$1,315.77; and the interest on the same fund \$345; state land fund \$345; and the swamp lands, \$345.

From the railroads the total receipts were \$1,025,019.53, all of which went to the revenue fund.

The pine stumpage contributed \$55,665.26, of which the permanent school fund received \$44,744.74; the permanent university fund \$1,315.77; general improvement fund \$1,315.77; and the interest on the same fund \$345; state land fund \$345; and the swamp lands, \$345.

Mineral lands contributed \$200 to the permanent school fund. Royalties on the ore mined contributed to the permanent school fund \$2,000.

Newly incorporated concerns paid in the revenue fund \$11,665. The tax on the insurance companies yielded \$12,435.22; of which went into the revenue fund \$12,435.22; the permanent school fund \$1,315.77; general improvement fund \$1,315.77; and the interest on the same fund \$345; state land fund \$345; and the swamp lands, \$345.

The total expenditures from the various funds were as follows: Revenue fund \$1,025,019.53; permanent school fund \$44,744.74; permanent university fund \$1,315.77; general improvement fund \$1,315.77; and the interest on the same fund \$345; state land fund \$345; and the swamp lands, \$345.

late Treasurer Koerner Completes His Annual Report.

St. Paul, Sept. 28.—State Treasurer Koerner has completed his annual report. The report published at the close of the fiscal year gave only the balances of the different funds, while the report just completed gives the expenditures and receipts of the various funds, and sources from which the receipts are obtained.

In the receipt column it is shown that the counties have paid to the revenue fund \$35,294.54; to the permanent fund \$10,438.82; to the school fund \$3,526.71; to the university fund \$1,315.77; general improvement fund \$1,315.77; and the interest on the same fund \$345; state land fund \$345; and the swamp lands, \$345.

From the railroads the total receipts were \$1,025,019.53, all of which went to the revenue fund.

The pine stumpage contributed \$55,665.26, of which the permanent school fund received \$44,744.74; the permanent university fund \$1,315.77; general improvement fund \$1,315.77; and the interest on the same fund \$345; state land fund \$345; and the swamp lands, \$345.

Mineral lands contributed \$200 to the permanent school fund. Royalties on the ore mined contributed to the permanent school fund \$2,000.

Newly incorporated concerns paid in the revenue fund \$11,665. The tax on the insurance companies yielded \$12,435.22; of which went into the revenue fund \$12,435.22; the permanent school fund \$1,315.77; general improvement fund \$1,315.77; and the interest on the same fund \$345; state land fund \$345; and the swamp lands, \$345.

The total expenditures from the various funds were as follows: Revenue fund \$1,025,019.53; permanent school fund \$44,744.74; permanent university fund \$1,315.77; general improvement fund \$1,315.77; and the interest on the same fund \$345; state land fund \$345; and the swamp lands, \$345.

The total expenditures from the various funds were as follows: Revenue fund \$1,025,019.53; permanent school fund \$44,744.74; permanent university fund \$1,315.77; general improvement fund \$1,315.77; and the interest on the same fund \$345; state land fund \$345; and the swamp lands, \$345.

The total expenditures from the various funds were as follows: Revenue fund \$1,025,019.53; permanent school fund \$44,744.74; permanent university fund \$1,315.77; general improvement fund \$1,315.77; and the interest on the same fund \$345; state land fund \$345; and the swamp lands, \$345.

The total expenditures from the various funds were as follows: Revenue fund \$1,025,019.53; permanent school fund \$44,744.74; permanent university fund \$1,315.77; general improvement fund \$1,315.77; and the interest on the same fund \$345; state land fund \$345; and the swamp lands, \$345.

The total expenditures from the various funds were as follows: Revenue fund \$1,025,019.53; permanent school fund \$44,744.74; permanent university fund \$1,315.77; general improvement fund \$1,315.77; and the interest on the same fund \$345; state land fund \$345; and the swamp lands, \$345.

The total expenditures from the various funds were as follows: Revenue fund \$1,025,019.53; permanent school fund \$44,744.74; permanent university fund \$1,315.77; general improvement fund \$1,315.77; and the interest on the same fund \$345; state land fund \$345; and the swamp lands, \$345.

The total expenditures from the various funds were as follows: Revenue fund \$1,025,019.53; permanent school fund \$44,744.74; permanent university fund \$1,315.77; general improvement fund \$1,315.77; and the interest on the same fund \$345; state land fund \$345; and the swamp lands, \$345.

LONDON'S DOG CEMETERY.
Queer Inscriptions on Beautiful

[illegible]

Beloved Roby, died 20th of AUGUST, 1896, aged 13 months and a half.

Then comes "Fleek, a faithful friend, and Maudie, an old friend."

On another tombstone are the words: "Dear old Pring."

But real grief is silent or nearly so, and the word "Jacob" upon another marble slab doubtless covers a heap of regrets.

Further on there is another superb tomb, upon which the name of the dog is inscribed in very small letters and that of the master in enormous letters. It is as follows: "Pamuel, the favorite."

In life the firmest friend,
First to welcome,
Foremost to defend,
But here is a still stranger inscrip-

Another is to the memory of "Our dear treasure Jack, a Scotch collie, died 1st of August, 1895, aged 15 years. He was the most intelligent, devoted, gentle, tender and affectionate dog that ever lived, with the best of tempers. He was adored by his devoted and afflicted friend, Sir H. Seton Gordon, Bart."

Here are others:

"Dear and affectionate Duke, and Thix, his beloved grandmother."

"Dear Little Peter, who died sudden-

On the tomb of a she dog is the following:
 "She brought a ray of sunlight into our existence.
 "But, alas! she carried it away with her."
 "Adored Spot," "Our Friend, Darling Jin Chin," and "Sweet Carlo" lie close each other.
 "Dear Mingo, brave, intelligent, singularly beautiful, loving, and loved," is a splendid monument.
 But, as if to prove that race prejudices necessarily disappear with death

this cemetery of dogs there is a stone erected "To the memory of our dear little cat, Chinchilla, poisoned July 21." During my visit a live dog somehow got into the cemetery, and was chased away by the keeper, for irreverently al-

SUNKEN TREASURE FOUND.
After having been submerged in 1891 for water for seven years, the treasure on board the steamer Skyrø, sunk at Cape Finisterre in April, 1891, has been recovered by divers, says the New York Journal. The Skyrø sailed from Lorient, bound for London, with a valuable cargo, including bar silver, valued at \$45,000. All went well until

approaching Cape Finisterre in foggy weather, when the vessel struck on the hidden reef, but passed over and went down in deep water within twenty minutes and about ~~two miles~~ off the coast. The expedition went out in the same ship, but was unable to secure the treasure.

Last year another effort was made, with more powerful diving apparatus. It resulted in fifty-nine bars being recovered. The working depth for the diver was never less than 282 fathoms (11 feet—and it frequently exceeded

To obtain these bars it was found necessary to blow away the deck with dynamite, which the diver did, only after great difficulty, owing to the boisterous state of the weather. Work was temporarily suspended in October, but was resumed this summer with satisfactory results.

LADIES

Special Sale of

FINE FURS

That the well-known firm of E. Albrecht & Son, of St. Paul, are having. There certainly seems to be no hard times noticeable in Duluth, said Wm. F. Clark, their representative, when interviewed. "I have put in about the busiest day for many a year," This certainly argues well for the exceptionally fine line of Furs he is showing, every article of which is manufactured in the workrooms of E. Albrecht & Son.

PEACE IN NICARAGUA.

The Insurrection Has Been Entirely Suppressed There.

Washington, Sept. 28.—The insurrection in Nicaragua has been entirely suppressed and peace restored throughout the country, according to advices received by Senor Corea, charge d'affaires of the greater republic of Central America, including Nicaragua. In view of reports that the government was resorting to harsh measures, opening all mail, etc., Mr. Corea made inquiries and

learned that all mail is safe from inspection, except that of persons under suspicion of being concerned in the insurrection. The indications are that the government will be lenient with those who have participated in the outbreak and will not resort to extreme punishments.

It is said to have sailed from an Atlantic port, but the particulars concerning it are meager. It is thought to have been in the nature of a shipment of arms or supplies for some insurrectionary element, and not an expedition such as those directed toward Cuba. Prior to the establishment of the greater republic legation here, it is said that numerous shipments of arms and clothing for insurrectionary move-

ments were shipped through Mobile and New Orleans. These have been stopped of late, and the purpose of the present vigilance is to prevent their being resumed.

THE OFFICIAL LIST.

Washington Report on the Yellow Fever Cases.

Washington, Sept. 28.—Following is a summary of the reports in regard to yellow fever developments of yesterday received by the surgeon general of the marine hospital service:

Biloxi, 2 new cases, 1 death. Ocean Springs, no new cases and no deaths. Scranton, 2 cases and 1 death. New

Illnesses, 22 cases and 2 deaths.

Surgeon General Wyman is informed that Dr. Algreen, who was detained at the Atlanta quarantine by the local authorities, has been released and allowed to proceed with his duties.

GOVERNOR PINGREE FOUND.

Michigan's Executive Seen on a

Chicago Bound Train.
Chicago, Sept. 28.—Governor Pingree of Michigan has been found, according to W. H. F. Holmes, a lawyer of this city, who arrived here from Detroit this morning. The governor boarded the train at a station not far west of Detroit and took a sleeping car for Chicago.

The governor, said Mr. Holmes, was very sociable and introduced himself as the governor of Michigan to the gentlemen in the buffet. The evening as passed very pleasantly, Mr. Holmes says. The governor said he could call on various Chicago aldermen concerning garbage matters and her questions of public interest.

THE TREASURY CONDITION.
Washington, Sept. 28.—Today's statement of the condition of the treasury shows: Available cash balance, \$214,060.67; gold reserve, \$147,540.176.

WATERWAYS DELEGATES.
Jackson, Miss., Sept. 28.—Capt. T. O. Maurin today appointed twenty-seven delegates to the waterways convention at Davenport, Oct. 5.

The evening paper is always carefully read, especially in the home circle, and is therefore an excellent advertising medium. Advertisers in The Evening Herald always get full value.
